

Local Policy Revisions

- Revisions are recommended to 3 local policies.
- Revisions were prepared in coordination with TASB Policy Service and ECISD legal counsel.

CH (LOCAL)

PURCHASING AND ACQUISITION

- Update 126 brought a change to CV (Local) to reflect the new state threshold at which competitive procurement is required for individual purchases: \$50,000 to \$100,000.
- This revision aligns the purchasing approval limit delegated to the Superintendent with the prior change from \$50,000 to \$100,000 for single, budgeted purchases.
- Purchases at or above \$100,000 will continue to require Board approval unless otherwise specified.
- Revision will be implemented immediately.

**Purchasing
Authority**

The Board delegates to the Superintendent the authority to make budgeted purchases for goods or services. However, any single, budgeted purchase of goods or services that costs ~~\$50,000~~ \$100,000 or more, except as provided below, shall require Board approval before a transaction may take place.

CFB (LOCAL)

ACCOUNTING INVENTORIES

- The capitalization threshold for individual capital assets has changed at the federal level to reflect \$10,000, and the state of Texas is finalizing a similar change to \$10,000.
- This proposed revision increases the capitalization threshold for ECISD from \$5,000 to \$10,000 to keep us in alignment with both the state and federal guidelines.
- Revision will be implemented immediately.

Capitalization Threshold

The capitalization threshold for purposes of classifying individual capital assets shall be ~~\$5,000~~ \$10,000.

The Superintendent shall determine the capitalization threshold for a group of assets, the individual cost of which does not exceed the capitalization threshold above but for which the cost in the aggregate is significant.

EHBE (LOCAL)

SPECIAL PROGRAMS: BILINGUAL EDUCATION/ESL

- EHBE (Legal) already contains the required parameters related to education for emergent bilingual students. When ECISD moved to dual language instruction district-wide, we were required to add policy language to EHBE (Local) that outlined the details of this instructional program.
- With the current proposed change in programming, the dual language instruction text will no longer be necessary. Therefore, you see the deletion of text in EHBE (Local) red-line.
- Language specific to the Transitional Bilingual Model Program will be included in administrative regulations.
- Program changes will take effect with the 2026–2027 school year.
