

**BRACKETT I.S.D.
FACILITY RECOMMENDATIONS
OCTOBER 3, 2007**

FACILITY IMPROVEMENT REQUIREMENTS:

1. Replace portable buildings with permanent construction as per Master Plan.
2. Locate new rooms close to existing rooms.
3. Replace all at one time or in stages as budget allows.
4. Construct Meeting Room that will serve teachers, staff and school board. New Administration Building in Master Plan is not a high priority at present.
5. Allow space for future buildings to be added as enrollment increases. This may include classrooms or specialty rooms such as Nurse and Special Ed.
6. Special Ed. Portable building (24' x 64') is in better condition. Replace this portable last.

Recommendations:

- Phase I:** Construct Meeting Room along with two (2) classrooms that can be divided to accommodate Migrant Program, ESL, Speech and RTI.
- Phase II** Construct new Nurse Clinic and Special Ed room. Both require plumbing. Clinic serves all of campus thus locate accessible to both elementary and secondary.
- Phase III** Construct Music Room plus classroom additions to accommodate increase in enrollment or new state requirements.
