

# BLENDED LEARNING

LASO 4.0 Grant

**Blended Learning  
Grant Program**

# Texas Education Code Section 29.924

(a) In this section, “blended learning” means an instructional delivery method that combines classroom and online instruction.

(d) A plan to implement a blended learning model developed under Subsection (c) must:

(2) **require teachers to differentiate instruction for all students in a grade level using the blended learning model**, including by:

- (A) using curricula and assessments that allow each student to progress at the student's pace based on demonstrated proficiency;
- (B) providing learning opportunities that give students, in collaboration with the teacher, control over the time, place, path, and pace of the student's learning; and
- (C) allocating a certain amount of instructional preparation time to collaborating with students and developing blended learning lesson plans and activities driven by individual student needs;

## UTeach PD

WE PREPARE TEACHERS. THEY CHANGE THE WORLD.

- Grant pays for PD
- TEA reimburses PD costs back to the District General Fund

To support school systems in high-fidelity implementation of blended learning, the Texas Education Agency (TEA) will reimburse school systems for blended learning professional development, including coaching, from qualifying providers. **This funding is provided by Rider 39 of the General Appropriations Act of the 89th Texas Legislature.**
