

New Building

1. Would like to build this building, but would like to add 10 feet to it to make the building a 50 x 60. Incorporate a farrowing room for students to learn how to breed sows by AI techniques and learn how to birth sows and raise the pigs. In addition a feed room needs to be added
2. IF this becomes too expensive would like to stay with the 50x50 , but would like to remove wash area and put in a farrowing room and feed room.
