Monthly Board Report

CAMPUS NEWS

- **Field Trip:** The third grade had a field trip to the public library before the Thanksgiving break. The students had a great time.
- **Thanksgiving Lunch:** We held Thanksgiving Lunches over two days to have a gap in parents entering and leaving the building. This is something we will do every year now. It allowed for parents to park closer to the building and not feel rushed while eating with their children. It helped with making sure we knew who was entering and leaving as well. We had 196 parents fill out our Google Form to preregister. The majority of the forms contained 2-3 adults requesting to be in attendance. This helped with making sure everyone listed could be on campus. We allowed parents to eat with students in different grade levels at the same time and the form made that easy to happen.
- **LiveSchool Implementation:** I had this in the last board report but I wanted to include it again. It has made a huge impact on student behavior. The whole staff has bought in. We will use Liveschool to know which students will attend the behavior bash. The criteria have been set and communicated with parents and students. Students will also use their points at our Buzzy Buck Store.
- **Honor Choir:** Mr. Gilley and our students in Honor Choir performed in the PAC on 12/5. This was the first event opened to the public and it was a huge success. The students did great and parents complimented the PAC on their way in and on their way out.
- **Christmas Concert-** Our 2nd-5th graders used the PAC on 12/9 to perform their Christmas Concert. The turn out was great and the new facility is amazing. The parents loved the PAC and so did our students.
- HES Enrollment Total: **672**
- HES Discipline Referrals for Year: **28**
- Attendance Percentage for the year: **94.25%**
