Certificate of Board

La Vega Independent School District

McLennan County

161-906

We, the undersigned, certify that the attached annual financial and compliance reports of the above-named independent school district were reviewed and approved for the year ended August 31, 2024 at a meeting of the Board of School Trustees of such independent school district on the 17th day of December 2024.

Board Secretary

Board President

JAYNES REITMEIER BOYD & THERRELL, P.C. Certified Public Accountants 5400 Bosque Blvd., Ste. 600 | Waco, TX 76710 P.O. Box 7616 | Waco, TX 76714 Main 254.776.4190 | Fax 254.776.8489 | jrbt.com

INDEPENDENT AUDITOR'S REPORT

The Board of School Trustees La Vega Independent School District:

Report on the Audit of Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of La Vega Independent School District (the "District") as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2024 and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for the twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Governmental Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Governmental Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages viii through xv, the budgetary comparison information on pages 51 and 52, and the schedules of the District's proportionate share of the net pension/OPEB liabilities and contributions on pages 53 through 60 (collectively, "the required supplementary information") be presented to supplement the basic financial statements.

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), and is not a required part of the basic financial statements. The other supplementary schedules, as listed in the table of contents, except for the schedule of Compensatory Education and Bilingual Education Programs, are presented for purposes of additional analysis and also are not a required part of the basic financial statements.

The schedule of expenditures of federal awards and the other supplementary information, except for the schedule of Compensatory Education and Bilingual Education Programs, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting or other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the other supplementary information, except for the schedule of Compensatory Education and Bilingual Education Programs, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Management is responsible for the other information, the schedule of Compensatory Education and Bilingual Education Programs on page 71, included in the annual financial report. The information comprises the schedule of Compensatory Education and Bilingual Education Programs on page 71 but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based upon the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated _______, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

. 2024

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the annual financial report for La Vega Independent School District (the "District") presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2024. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$8.6 million, an increase in net position of \$4.5 million as compared to an increase in net position of \$4.5 million in the prior year. The unrestricted net position of the District at August 31, 2024 is a deficit of \$5.5 million, which results primarily from the District's recognition of net pension and other postemployment benefits ("OPEB") liabilities of \$18.6 million.
- As of the close of 2024, the District's governmental funds reported combined ending fund balances of \$25.2 million, an increase of \$1.6 million in comparison with the prior year increase of \$3.0 million. The increase in governmental funds combined ending fund balance resulted primarily from additional state aid of \$3.5 million due to the state funding formula and \$1.8 million gain on disposition of capital assets due to insurance proceeds from wind damage offset by a decrease in property taxes of \$0.8 million due to an increase in the homestead exemption from \$40,000 to \$100,000 and state-wide property tax rate compression, offset by an increase in total expenditures of approximately \$6.3 million due to increases in salaries and related benefits due to step increases and one time capital expenditures of \$2.5 million.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$12.6 million, or approximately 33% of the total 2024 general fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management's discussion and analysis (this section), the basic financial statements, required supplementary information, and other supplementary information.

The basic financial statements include two kinds of statements that present different views of the District: The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status. The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

The *governmental funds* statements tell how general education services were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. The statements also include other supplementary information as required by the Texas Education Agency. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Financial Statements

The *government-wide statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the District's assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, etc.).

The governmental activities of the District include all of the District's basic services, such as instruction, curriculum and staff development, student services, extracurricular activities, general administration, and plant maintenance and operations. Property taxes, state aid, and federal and state grants finance most of these activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds, proprietary funds, or fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows or spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains approximately thirty-two individual governmental funds. Information is presented in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the debt service fund, which are considered to be major funds. Data from the other governmental funds are combined into a single aggregated presentation.

The District adopts an annual appropriated budget for its general fund, child nutrition fund, and debt service fund. Budgetary comparison statements are included in supplemental information to demonstrate compliance with these budgets.

Proprietary Fund

The District uses one type of proprietary funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses an internal service fund to account for its self-insured workers' compensation insurance services. Because these services benefit governmental activities, they have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The private purpose trust fund is used to report resources held in trust for scholarships. The custodial fund reports resources held by the District in a custodial capacity for student groups.

Notes to the Financial Statements and Other Information

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide pension and OPEB benefits. Additional supplementary information is presented as required by the Texas Education Agency.

GOVERNMENT-WIDE OVERALL FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$8,558,017 at the close of the most recent fiscal year.

La Vega Independent School District Net Position

August 31, 2024 and 2023

| | | Governmental Activities | | |
|----------------------------------|----|-------------------------|-------------|--|
| | | 2024 | 2023 | |
| Current and other assets | \$ | 28,966,491 | 28,259,589 | |
| Capital assets | | 37,643,886 | 36,618,953 | |
| Total assets | | 66,610,377 | 64,878,542 | |
| Deferred outflows of resources: | _ | 10,640,142 | 12,342,778 | |
| Current liabilities | | 3,179,091 | 4,173,659 | |
| Long-term liabilities | | 52,393,267 | 55,828,914 | |
| | | 55,572,358 | 60,002,573 | |
| Deferred inflows of resources: | _ | 13,120,144 | 13,188,529 | |
| Net position: | | | | |
| Net investment in capital assets | | 4,951,387 | 2,063,068 | |
| Restricted | | 9,122,181 | 6,932,998 | |
| Unrestricted | | (5,515,551) | (4,965,848) | |
| | \$ | 8,558,017 | 4,030,218 | |

The District has a net investment in capital assets of \$4,951,387 at August 31, 2024, which reflects its net investment in capital assets (e.g., land, buildings and improvements, furniture and equipment, and right-of-use assets) less any outstanding debt that was used to acquire those assets. The District uses these capital assets to provide public educational services to its students. Accordingly, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (\$9,122,181) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* is a deficit of \$5,515,551.

La Vega Independent School District Changes in Net Position Years Ended August 31, 2024 and 2023

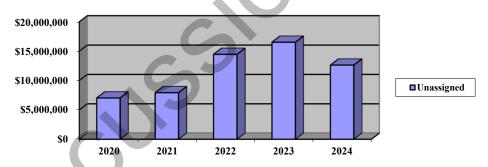

| | | Governmen | ntal Activities |
|--|----|------------|-----------------|
| | • | 2024 | 2023 |

| Ancillary services | | 65,541 | 62,198 |
| Interest on long-term debt | | 1,052,316 | 1,066,088 |
| Other debt service fees | | 7,158 | 6,549 |
| Payments to other governments | | 172,033 | 201,551 |
| Total expenses | • | 48,552,688 | 42,749,293 |
| | • | | |
| Increase in net position | | 4,527,799 | 4,486,967 |
| Net position, beginning of year, as restated | | 4,030,218 | (456,749) |
| The position, organizing of year, as restated | | 1,050,210 | (150,715) |
| Net position, end of year | \$ | 8,558,017 | 4,030,218 |
| | • | | |
| | | | |

The District recognized an increase in net position of \$4.5 million, compared to an increase of \$4.5 million in the prior year, as a result of the following:

- Property taxes decreased approximately \$0.7 million due to an increase in the homestead exemption from \$40,000 to \$100,000 and a decrease in the overall tax rate due to state-wide tax rate compression offset by increases in assessed values. State aid increased \$3.5 million due to the state funding formula. Operating grants and contributions increased \$0.6 million due to an increase in the pension and OPEB benefit recognized in the current year. Additionally, investment income increased \$0.6 million due to increasing interest rates. Finally, the District recognized a gain of \$1.8 million on disposition of capital assets due to insurance proceeds from wind damage.
- The cost of all governmental activities this year was \$48.6 million, an increase of approximately \$5.8 million from the prior year. There was an increase in salaries and related benefits expenses primarily due to state mandated "step increases" for teachers and District-wide raises in wages and benefits for support personnel of approximately 4%.

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

The District's Board of School Trustees annually monitors the relative unassigned fund balance in the District's general fund. Most districts have an unassigned fund balance goal of 15% of the budget, or two to three months of operations costs for their fund balance. The unassigned fund balance in the general fund decreased in 2024 from \$14,458,423 to \$12,627,700. The graph below reflects the historical trend fund balance for unassigned fund balance of the general fund.

The fund balance of the general fund decreased by \$0.6 million during the current fiscal year, compared to an increase of \$2.1 million in the prior year. Key factors in this change are as follows:

- Property taxes decreased approximately \$1.2 million due to an increase in the homestead exemption from \$40,000 to \$100,000 and a decrease in the M&O tax rate due to state-wide tax rate compression offset by increases in assessed values. State aid increased approximately \$3.6 million due to the state funding formula. Federal revenue decreased approximately \$0.3 million due to less indirect costs recognized in the current year as the ESSER and other ARP funding was reduced in the current year.
- Total expenditures were \$38.5 million and \$32.3 million in 2024 and 2023, respectively. This \$6.2 million increase was primarily attributed to an increase in salaries and related benefits for step-increases, district-wide raises for support personnel of approximately 4%, and an increase in capital outlay of \$2.5 million.

The fund balance of the debt service fund increased by approximately \$2.1 million during the current fiscal year, compared to an increase of \$1.0 million in the prior year. Property taxes increased \$0.4 million due to an increase in the I&S tax rate of \$0.004757 per \$100 valuation and immaterial increases in assessed values. Additionally, investment income increased approximately \$0.3 million due to increases in interest rates during the current year. Expenditures consisted of scheduled principal and interest payments on outstanding debt and were consistent with prior year payments.

General Fund Budgetary Highlights

There was an approximately \$3.0 million difference between the original budget and the final amended budget for total expenditures of the general fund. The primary differences consisted of approximately \$1.9 million for construction costs on ongoing projects, \$0.6 million and \$0.4 million for additional instructional and school leadership costs due to realignment of personnel within the District, and \$0.2 million for additional student transportation costs as a result of increased payroll and benefits under the new contract effective October 2023.

Expenditures in the general fund exceeded appropriations for food services (\$6,764), facilities maintenance and operations (\$126,273), and principal and interest on long-term debt (\$102,470) primarily related to renovation costs from wind damage that were in excess of budgeted amounts and principal and interest payments that were required due to GASB 87, *Leases*. These over-expenditures were funded by other functions that were less than budgeted amounts in the general fund.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of August 31, 2024 amounts to \$37.6 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment, and right-of-use assets under leases.

Major capital asset events during the current fiscal year included \$201,208 for new serving lines in the cafeterias; \$94,230 for the purchase of two vehicles; and \$39,093 for new musical instruments. Construction in progress included ongoing projects as follows:

| - | District-wide HVAC improvements | 1,501,332 |
|---|---|-----------|
| - | H.P. Miles Middle School – roof replacement | 153,196 |
| - | Field House Project | 391,341 |
| - | Architect fees and other plan designs for | |
| | additions and renovations to be funded with | |
| | the subsequent bond issue of \$91,365,000 | 498,905 |

Additional information on the District's capital assets can be found in Note 9.

Long-term Debt

The State of Texas backs the District's bonds with its "AAA/stable" rating. This bond rating helps the District by reducing the costs of any debt issued. At the end of the current fiscal year, the District had total bonded debt outstanding of \$32.8 million. Reductions in long-term debt were the result of scheduled principal payments and reductions in the net pension liability and total OPEB liability of \$1.8 million.

Additional information on the District's long-term debt can be found in Note 10.

Economic Factors and Next Year's Budget

For 2025, the District adopted a budget deficit for the general fund of approximately \$2.8 million. The M&O tax rate adopted for 2025 is \$0.7552 per \$100 valuation and is a \$0.0023 decrease from the 2024 tax rate of \$0.7575. The decrease in the M&O tax rate results from state wide tax rate compression.

The I&S tax rate adopted for 2025 is \$0.5000 per \$100 valuation as compared to the 2024 I&S tax rate of \$0.2500 per \$100 valuation. The increase in the I&S tax rate is due to additional debt service requirements for the \$91,365,000 Series 2024 bonds issued in September 2024.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District's Administration Building, La Vega Independent School District, 400 E. Loop 340, Waco, Texas 76705.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended August 31, 2024

| | Ś | |
|--|----|--------------|
| Net change in fund balances - total governmental funds (Exhibit C-3) | \$ | 1,635,887 |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as | | |
| depreciation expense. This is the amount by which capital expenditures (\$2,990,293) | | |
| exceeded depreciation expense (\$1,965,360) in the current period. | | 1,024,933 |
| Revenues in the statement of activities that do not provide current financial resources | | |
| are not reported as revenues in the funds. | | 14,717 |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the | | 1 5 (2 5 5 2 |
| net effect of these differences in the treatment of long-term debt and related items. | | 1,562,559 |
| Internal service funds are used by management to charge the costs of certain services to individual funds. The change in net position for the internal service fund is reported as | | |
| part of governmental activities. | | 45,150 |
| Governmental funds report contributions to pension/OPEB plans as expenditures, whereas pension/OPEB expense is recognized in the statement of activities. This is the amount by which the pension/OPEB benefit (\$1,519,610) exceeded contributions to the | | 244.552 |
| pension/OPEB plans (\$1,275,057) in the current period. | | 244,553 |
| Change in net position of governmental activities (Exhibit B-1) | \$ | 4,527,799 |

Notes to Financial Statements

August 31, 2024

(1) <u>Summary of Significant Accounting Policies</u>

The Board of School Trustees (the "Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the La Vega Independent School District (the "District"). Because members of the Board are elected by the public; have the authority to make decisions, appoint administrators and managers, and significantly influence operations; and have the primary accountability for fiscal matters; the District is not included in any other governmental "reporting entity". Also, no component units were identified or included within the reporting entity.

The accounting policies of the District substantially comply with the rules prescribed in the Texas Education Agency's ("TEA") <u>Financial Accountability System Resource Guide (the "Resource Guide"</u>). These accounting policies generally conform to generally accepted accounting principles applicable to governmental units.

(a) <u>Government-wide and fund financial statements</u>

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(b) Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements, proprietary funds, and the fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenue and interest associated with the current fiscal period are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All property tax receivables are reported net of an allowance for uncollectible amounts. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(b) Measurement focus, basis of accounting and financial statement presentation (continued)

The District reports the following proprietary funds:

The District utilizes an internal service fund to account for its self-insured workers' compensation insurance services provided to other funds on a cost reimbursement basis.

Additionally, the District reports the following fund types:

The private purpose trust fund accounts for resources legally held in trust for scholarships to be awarded to current and former students for post-secondary education. All resources of the fund, including any earnings on invested resources, may be used to support the activities listed in the preceding sentence. Additionally, the District accounts for resources held for others in a custodial capacity in custodial funds. The District's custodial fund consists of the student activity funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

(c) <u>Investments</u>

State statutes authorize the District to invest in obligations of the United States or its agencies and instrumentalities and state or local governments, commercial paper, guaranteed investment contracts, repurchase agreements, and certain governmental investment pools. The District's local investment policy limits the District to invest in obligations of the United States or its agencies and instrumentalities, certificates of deposit, fully collateralized repurchase agreements by obligations of the United States or its agencies and instrumentalities, and local government investment pools.

Investments are reported at fair value, except for governmental investment pools. The governmental investment pools operate in accordance with appropriate state laws and regulations, and are reported at amortized cost.

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(c) <u>Investments</u> (continued)

For its investment in a repurchase agreement carried at fair value, the District uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The District determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market.

When considering market participant assumptions in fair value measurements for its investment in a repurchase agreement, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

(d) <u>Interfund receivables and payables</u>

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(e) <u>Supplies and inventory</u>

All inventories are valued at cost using the first in/first out method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

(f) <u>Capital assets</u>

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Buildings and improvements, and furniture and equipment are depreciated using the straight-line method over their estimated useful lives:

| | Years |
|----------------------------|--------|
| Buildings and improvements | 6 - 40 |
| Furniture and equipment | 4 - 15 |

(g) Compensated absences

District employees are entitled to vacation and sick leave days earned by them for services performed. Vacation days lapse at the end of the year and have not been accrued. Sick days do accumulate, but employees are not paid the benefits on termination or retirement if they are not used. Consequently, the benefits have not been accrued.

(h) <u>Long-term obligations</u>

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(h) <u>Long-term obligations</u> (continued)

bonds using the effective-interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are recorded as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

(i) <u>Pensions</u>

The fiduciary net position of the Teacher Retirement System of Texas ("TRS") has been determined using the flow of economic resources measurement focus and the full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

(j) Other Postemployment Benefits ("OPEB")

The fiduciary net position of the Teacher Retirement System of Texas ("TRS") TRS Care Plan ("TRS-Care") has been determined using the flow of economic resources measurement focus and the full accrual basis of accounting. This includes for purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities, and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(k) <u>Deferred outflows and deferred inflows of resources</u>

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

(l) <u>Fund balance and net position</u>

Governmental fund balances classified as restricted are balances with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments. Fund balances classified as committed can only be used for specific purposes pursuant to constraints imposed by the Board of School Trustees (the "Board") through an ordinance. Assigned fund balances are constrained by an intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by District management based upon Board direction. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. The order of spending available resources is as follows: restricted, committed, assigned, and unassigned.

In the government-wide financial statements, proprietary fund, and fiduciary fund financial statements, net position represents the difference between assets, deferred outflows, liabilities, and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvements of those assets, and adding back unspent bond proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Notes to Financial Statements (Continued)

(1) <u>Summary of Significant Accounting Policies</u> (continued)

(m) Data control codes

Data control codes refer to the account code structure prescribed by the TEA in the Resource Guide.

(2) <u>Reconciliation of Government-Wide and Fund Financial Statements</u>

The governmental fund balance sheet includes a reconciliation between *fund balance* – *total governmental funds* and *net position* – *governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains, "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$54,895,442 difference are as follows:

| Bonds payable | \$ (30,219,999) |
|--|-----------------|
| Add: Premium on issuance | (2,552,915) |
| Less: Deferred charge on refunding | 465,534 |
| Accumulated accretion on bonds | (385,119) |
| Loans payable | (528,000) |
| Lease liabilities | (143,582) |
| Accrued interest payable | (22,173) |
| Net pension/OPEB liabilities, and related deferred inflows | |
| of \$13,120,144 and deferred outflows of \$10,174,608 | (21,509,188) |
| | \$ (54,895,442) |

The governmental statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances of total governmental funds and changes in net position of governmental activities as reported in the government-wide financial statements. An element of that reconciliation states that "the issuance of long-term debt (e.g., bonds and leases) provides current financial resources to the governmental funds, while the repayment of the principal of long-term debt consumes the current

Notes to Financial Statements (Continued)

(2) <u>Reconciliation of Government-Wide and Fund Financial Statements</u> (continued)

financial resources of governmental funds. Neither transaction, however, has any effect on net position." The details of this \$1,562,559 difference are as follows:

| Principal repayments: | |
|--|--------------|
| General obligation and refunding bonds | \$ 1,165,000 |
| Loans payable | 132,000 |
| Lease liabilities | 108,290 |
| Amortization of premiums received on issuance of bonds | 214,560 |
| Amortization of deferred charge on refunding of bonds | (36,119) |
| Accumulated accretion on capital appreciation bonds | (26,888) |
| Accrued interest payable | 5,716 |
| | \$ 1,562,559 |

(3) <u>Budgetary Information</u>

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, the child nutrition special revenue fund, and the debt service fund. There is no legal requirement to adopt a budget for the instructional materials allotment special revenue fund; therefore, presentation of budgetary comparison information is not required. Budgets are not legally adopted for capital projects funds; however, specific projects are individually approved by the Board of School Trustees. All annual appropriations lapse at fiscal year-end. By August 20, the budget is legally adopted through passage of an appropriate ordinance by the Board of School Trustees.

The appropriated budget is prepared by fund, function, object code, program intent code, and location. The District's management may make transfers of appropriations within a function. Transfers or appropriations between functions require the approval of the Board of Trustees. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is the function level.

There was an approximately \$3.0 million difference between the original budget and the final amended budget for total expenditures of the general fund. The primary differences consisted of approximately \$1.9 million for construction costs on ongoing projects, \$0.6 million and \$0.4 million for additional instructional and school leadership costs due to realignment of personnel within the District, and \$0.2 million for additional student transportation costs as a result of increased payroll and benefits under the new contract effective October 2023.

Notes to Financial Statements (Continued)

(3) <u>Budgetary Information</u> (continued)

Expenditures in the general fund exceeded appropriations for food services (\$6,764), facilities maintenance and operations (\$126,273), and principal and interest on long-term debt (\$102,470) primarily related to renovation costs from wind damage that were in excess of budgeted amounts and principal and interest payments that were required due to GASB 87, *Leases*. These over-expenditures were funded by other functions that were less than budgeted amounts in the general fund.

Encumbrance accounting is employed in the governmental funds. Encumbrances (i.e. purchase orders, contracts) outstanding at year-end do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. There were no significant encumbrances outstanding at August 31, 2024

(4) <u>Deposits and Investments</u>

Investments of the District at August 31, 2024, consist of the following:

| Investments | | Amount | Weighted Average Maturity (in Days) |
|---|----|------------|---|
| | | | |
| Public funds investment pools - reported at amortized cost: | | | |
| Texas CLASS Local Government | | | |
| Investment Pool ("Texas CLASS") | \$ | 5,980,093 | 35 |
| Texas Range Local Government Investment Pool | | | |
| ("Texas Range") | | 13,663,702 | 42 |
| Total public funds investment pools | | 19,643,795 | |
| Repurchase agreement - reported at fair value | _ | 4,062,079 | |
| | \$ | 23,705,874 | |

Public Funds Investment Pools

The public funds investment pool has been created pursuant to the Interlocal Corporation Act of the State of Texas. The District has delegated the authority to hold legal title to the public funds investment pools and, as custodian, to make investment purchases with the District's funds.

Notes to Financial Statements (Continued)

(4) <u>Deposits and Investments</u> (continued)

Texas CLASS. The Texas Cooperative Liquid Assets Securities System Trust ("Texas CLASS") was created as a local government investment pool pursuant to state law. The Texas CLASS Trust Agreement is an agreement of indefinite term regarding the investment, reinvestment, and withdrawal of local government funds. The parties to the Trust Agreement are Texas local governments that choose to participate in the trust ("participants"), Public Trust Advisors, LLC as program administrator, and UMB Bank, N.A. as custodian. Texas CLASS is overseen by a Board of Trustees ("the Board") comprised of active members of the pool and elected by the participants. The Board is guided by an Advisory Board and is responsible for selecting the program administrator. There are no maximum transaction amounts and withdrawals from Texas CLASS that may be made daily. Texas CLASS uses amortized cost rather than fair value to report net assets share price.

Texas Range. The Texas Range Local Government Investment Pool ("Texas Range") was established by the Common Investment Contract, in conformity with Chapters 791 (Interlocal Cooperation Act) and 2256 (Public Funds Investment Act) of the Texas Government Code. Texas Range is an agreement of indefinite term regarding the investment, reinvestment, and withdrawal of local government funds. The parties to the Interlocal Agreement are PFM Asset Management, LLC as investment advisor and administrator, and U.S. Bank, N.A. as custodian. Texas Range is guided by an Advisory Board which is made up of experienced local government finance directors and treasurers. There are no maximum transaction amounts and withdrawals from Texas Range that may be made daily. Texas Range uses amortized cost rather than fair value to report net assets share price.

Repurchase Agreement

In July 2010, the District invested in a repurchase agreement with a financial institution in connection with the issuance of \$5,190,000 Series 2010B Unlimited Tax Qualified School Construction Bonds. Under the terms of the repurchase agreement, annual sinking fund requirements of \$234,789 are deposited with the paying agent and are invested in eligible securities. Interest earned on the sinking fund deposits is 3.16% per annum under the terms of the repurchase agreement, which has a maturity date of February 15, 2027. The maturity date of the repurchase agreement coincides with the maturity date of the bonds, as more fully described in Note 10. At August 31, 2024, the fair value of the repurchase agreement was \$4,062,079, which is based upon estimated future cash flows (Level 3).

Notes to Financial Statements (Continued)

(4) <u>Deposits and Investments</u> (continued)

Interest Rate Risk

In accordance with its investment policy, the District manages its exposure to declines in fair values by limiting the maturity of its investment portfolio. The term of any collateralized mortgage obligation is limited to ten years, repurchase agreements may not exceed 90 days, banker's acceptances must have a stated maturity of 270 days or less, and no-load mutual funds must have a weighted average maturity of less than two years. Except for the repurchase agreement described above, the maximum allowable stated maturity of any other individual investment owned by the District cannot exceed one year.

Credit Risk

It is the District's policy to limit its investments in a manner that ensures the preservation of capital in the overall portfolio. Specifically, repurchase agreements must be secured by obligations of the United States or its agencies, commercial paper must be rated not less than A-1 or P-1, no-load mutual funds must be rated not less than AAA or its equivalent, and public funds investment pools must be continuously rated no lower than AAA or AAAm or at an equivalent rating. At August 31, 2024, Texas CLASS is rated AAAm by Standard & Poor's. At August 31, 2024, Texas Range is rated AAAmmf by Fitch's.

Custodial Credit Risk - Deposits

In the case of deposits, custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a depository contract with a financial institution and monitors its deposits to ensure its bank deposits are insured or fully collateralized with securities held by the pledging financial institution's agent in the District's name.

Notes to Financial Statements (Continued)

(4) <u>Deposits and Investments</u> (continued)

In addition, the following is disclosed regarding coverage of combined balances on the date of the highest combined deposit during:

- (a) Depository: American Bank
- (b) The market value of securities pledged as of the date of the highest combined balance on deposit was \$6,621,448.
- (c) The highest combined balance of cash, savings, and time deposit accounts amounted to \$5,512,163 and occurred during the month of October 2023.
- (d) Total amount of FDIC coverage at the time of largest combined balance was \$250,000.

(5) <u>Property Taxes</u>

Property taxes are levied by October 1 on the assessed value as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code.

The assessed value at January 1, 2023, on which the 2023 levy was based, was \$1,358,439,597. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

The District's maximum legal maintenance and operations tax rate is \$0.757500 per \$100 valuation; the current maintenance and operations tax rate is \$0.757500 per \$100 valuation.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the general and debt service funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written-off, but the District is prohibited from writing-off real property taxes without specific statutory authority from the Texas Legislature. The allowance for uncollectible amounts was \$302,692 at August 31, 2024.

Notes to Financial Statements (Continued)

(6) <u>Due from Other Governments</u>

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State of Texas through the school foundation and per capita programs. Amounts due from federal and state governments as of August 31, 2024 are summarized below:

| Fund | State Aid | Federal/State Programs | Total |
|-------------------------------|----------------------|---------------------------|----------------------|
| General Other governmental | \$ 1,838,725 - | 317,499 | 1,838,725 317,499 |
| Totals | \$ 1,838,725 | 317,499 | 2,156,224 |

(7) Interfund Balances and Transfers

Interfund receivable and payable balances at August 31, 2024 are as follows:

| Fund | Receivable | | Payable | |
|--------------------------|------------|---------|---------|--|
| General | \$ | 75,416 | 30,000 | |
| Debt service | | 30,000 | - | |
| Other governmental funds | _ | _ | 75,416 | |
| | \$ | 105,416 | 105,416 | |

Interfund balances resulted from the time lag between the dates that payments between funds are made.

In the year ended August 31, 2024, the general fund made an operating transfer of \$891,170 to the capital projects fund (other governmental funds) to cover the current capital outlay costs in the capital projects fund that will be funded with future bond proceeds.

Notes to Financial Statements (Continued)

(8) Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned. Unearned revenue at August 31, 2024 consisted of \$268,775 for grant drawdowns prior to meeting all eligibility requirements.

(9) <u>Capital Assets</u>

Capital asset activity for governmental activities for the year ended August 31, 2024was as follows:

| | Balance | | | Balance |
|---------------------------------------|------------------------|---------------|-----------|----------------|
| | September 1, | | | August 31, |
| | 2023 | Increases | Decreases | 2024 |
| Capital assets not being depreciated: | | | | |
| Land | \$ 431,650 | - | - | 431,650 |
| Construction in progress | | 2,544,774 | - | 2,544,774 |
| Total capital assets not being | | | | |
| depreciated | 431,650 | 2,544,774 | | 2,976,424 |
| Capital assets being depreciated: | | | | |

Notes to Financial Statements (Continued)

(9) <u>Capital Assets</u> (continued)

The construction commitments will be financed with existing bond proceeds from the subsequent issuance of bonds in the amount \$91.4 million, as more fully described in Note 20.

(10) Long-Term Debt

Long-term debt consists of bonded indebtedness, loan payable, lease liabilities, a net pension liability, and a total OPEB liability. The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities and enters into loans payable and leases to provide funds for the acquisition of various types of equipment. Loan payable, lease liabilities, the net pension liability, and the total OPEB liability are generally liquidated by the general fund and certain special revenue funds.

The following is a summary of changes in long-term debt for the year ended August 31, 2024:

| | Balance September 1, 2023 | Additions | Deletions | Balance August 31, 2024 | Due Within One Year |
|------------------------|---------------------------------|-----------|-----------|-------------------------------|---------------------------|

| \$ | 55,828,914 | 26,888 | 3,462,535 | 52,393,267 | 1,596,645 |

Notes to Financial Statements (Continued)

(10) <u>Long-Term Debt</u> (continued)

General obligation and refunding bonds at August 31, 2024 consist of the following individual issues:

| \$5,190,000 Unlimited tax qualified school construction bonds, series 2010B with annual sinking fund payments of \$234,789 through maturity in February 2027, at which time all principal | 0 |
|---|---------------|
| and accrued interest at 5.39% are due in full | \$ 5,190,000 |
| \$5,705,000 Unlimited tax refunding bonds, series 2015 due in | |
| annual installments of \$330,000 to \$485,000 through | |
| February 2031, interest at 3% to 4% | 2,995,000 |
| \$8,500,000 Unlimited tax refunding bonds, series 2017 due in | |
| annual installments of \$35,000 to \$1,610,000 through | |
| February 2039, interest at 2% to 4% | 8,314,999 |
| \$7,380,000 Unlimited tax refunding bonds, series 2020 due in | |
| annual installments of \$170,000 to \$1,655,000 through | |
| February 2040, interest at 1% to 2.28% | 6,455,000 |
| | |
| \$7,995,000 Unlimited tax refunding bonds, series 2021 due in | |
| annual installments of \$160,000 to \$990,000 through | |
| February 2034, interest at 2% to 3% | 7,265,000 |
| | |
| | \$ 30,219,999 |
| | |

Notes to Financial Statements (Continued)

(10) Long-Term Debt (continued)

Annual debt service payment requirements to maturity for general obligation and refunding bonds are as follows:

| Year Ending | | | Total |
|-------------|---------------|-----------|--------------|
| August 31, | Principal | Interest | Requirements |
| | | | |
| 2025 | \$ 1,434,789 | 851,100 | 2,285,889 |
| 2026 | 1,469,789 | 811,363 | 2,281,152 |
| 2027 | 6,005,422 | 766,200 | 6,771,622 |
| 2028 | 1,625,000 | 713,750 | 2,338,750 |
| 2029 | 1,675,000 | 651,775 | 2,326,775 |
| 2030 - 2034 | 8,904,999 | 2,349,175 | 11,254,174 |
| 2035 - 2039 | 7,450,000 | 1,016,850 | 8,466,850 |
| 2040 | 1,655,000 | 24,825 | 1,679,825 |
| | | | |
| | \$ 30,219,999 | 7,185,038 | 37,405,037 |
| | | | |

The bond indentures contain certain restrictions for the maintenance of and flow of monies through various restricted accounts. The District is in compliance with all such significant financial limitations and restrictions.

Loan Payable

Loan payable at August 31, 2024 consist of the following individual issues:

\$990,000 Time warrant note, series 2018, interest at a variable rate (4.5025% at August 31, 2024) is due semi-annually; annual principal payments of \$66,000 are due through maturity in March 2033

\$ 528,000

Notes to Financial Statements (Continued)

(10) Long-Term Debt (continued)

Annual debt service payment requirements to maturity for loan payable are as follows:

| Year Ending | | | | Total |
|-------------|----|-----------|----------|--------------|
| August 31, | _ | Principal | Interest | Requirements |
| | _ | | | |
| 2025 | \$ | 66,000 | 18,556 | 84,556 |
| 2026 | | 66,000 | 20,802 | 86,802 |
| 2027 | | 66,000 | 17,830 | 83,830 |
| 2028 | | 66,000 | 14,858 | 80,858 |
| 2029 | | 66,000 | 11,887 | 77,887 |
| 2030 - 2033 | _ | 198,000 | 17,830 | 215,830 |
| | _ | | | |
| | \$ | 528,000 | 101,763 | 629,763 |
| | | D | | |

Leases

The District leases copiers and other equipment used in operations. These leases have terms between two and five years requiring monthly payments. As of August 31, 2024, the principal and interest requirements to maturity for the lease liabilities is as follows:

| Year Ending August 31, | _ | Principal | Interest | Total Requirements |
|---------------------------|----|---------------------------|---------------------------|---------------------------|
| 2025 2026 2027 | \$ | 95,856 39,414 8,312 | 3,131 760 <u>81</u> | 98,987 40,174 8,393 |
| | \$ | 143,582 | 3,972 | 147,554 |

(11) Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the District carries commercial insurance. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Notes to Financial Statements (Continued)

(12) <u>Revenues from Local and Intermediate Sources</u>

During the year ended August 31, 2024 revenues from local and intermediate sources reported in the governmental fund financial statements consisted of the following:

| | | | Other | |
|---|----------------------|-----------|---------|------------|
| | | Debt | Govern- | |
| | General | Service | mental | Total |
| Property taxes Penalties, interest and other | \$ 10,192,112 | 3,357,003 |). | 13,549,115 |

| | \$ | 13,120,144 | 341,372 | 112,667 |

Notes to Financial Statements (Continued)

(14) Defined Benefit Pension Plan

Plan Description. The District participates in a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas ("TRS"). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by TRS.

Pension Plan Fiduciary Net Position: Detail information about TRS's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <u>https://www.trs.texas.gov/Pages/about_publications.aspx;</u> by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698, or by calling (512) 542-6592.

Benefits Provided: TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of credited service or earlier than 55 with 30 years of credited service. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad-hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Notes to Financial Statements (Continued)

(14) <u>Defined Benefit Pension Plan</u> (continued)

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by TRS's actuary.

Contributions: Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of TRS during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

| | | outions Rates Fiscal Year |
|---|-------|------------------------------|
| | 2024 | 2023 |
| Member (employees) | 8.25% | 8.00% |
| Non-employer contributing entity (state of Texas) | 8.25% | 8.00% |
| Employer (the District) | 8.25% | 8.00% |
| | | Contributions |
| | | Required and |
| | | Made |
| Member (Employees) | | \$ 2,068,439 |
| Non-employer contributing entity (State) | | 1,480,037 |
| District | | 1,017,713 |

Notes to Financial Statements (Continued)

(14) <u>Defined Benefit Pension Plan</u> (continued)

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act ("GAA").

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.8% of the member's salary beginning in fiscal year 2023, gradually increasing to 2.0% in fiscal year 2025.
- When employing a retiree of TRS, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Notes to Financial Statements (Continued)

(14) Defined Benefit Pension Plan (continued)

Actuarial Assumptions: The total pension liability in the August 31, 2022 actuarial valuation rolled forward to August 31, 2023 was determined using the following actuarial assumptions:

| Valuation date | August 31, 2022 rolled forward to |
|--|------------------------------------|
| | August 31, 2023 |
| Actuarial cost method | Individual entry age normal |
| Asset valuation method | Fair value |
| Single discount rate | 7.00% |
| Long-term expected investment rate of return | 7.00% |
| Municipal bond rate at August 31, 2023 | 4.13% * |
| Inflation | 2.30% |
| Salary increases, including inflation | 2.95% to 8.95% including inflation |
| Benefit changes during the year | None |
| Ad hoc post-employment benefit changes | None |
| | |

* The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity's Index's "20-Year Municipal GO AA Index".

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions please see the actuarial valuation report dated November 22, 2022.

Discount Rate: A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.5% of payroll in fiscal year 2024 gradually increasing to 9.56% of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements (Continued)

(14) <u>Defined Benefit Pension Plan</u> (continued)

The long-term rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the TRS's target asset allocation as of August 31, 2023 are summarized below:

| | Target | Long-Term Expected Arithmetic Real | Expected Contribution to Long-term Portfolic |
|----------------------------|---------------|--|--|
| Asset Class | Allocation ** | Rate of Return *** | Returns |
| Global Equity: | | | |
| U.S. | 18.0% | 4.0% | 1.0% |
| Non-U.S. Developed | 13.0% | 4.5% | 0.9% |

| and Infrastructure | 6.0% | 4.8% | 0.4% |
| Commodities | - | 4.4% | 0.0% |
| Risk Parity | 8.0% | 4.5% | 0.4% |
| Asset Allocation Leverage: | | | |
| Cash | 2.0% | 3.7% | 0.0% |
| Asset Allocation Leverage | -6.0% | 4.4% | -0.1% |
| Inflation Expectation | | | 2.3% |
| Volatility Drag **** | | | -0.9% |
| Expected Return | 100% | | 8.00% |

* Absolute Return includes Credit Sensitive Investments

** Target allocations are based on the FY2023 policy model.

*** Capital Market Assumptions come from Aon Hewitt (as of 6/30/2023).

**** The volatility drag results from the conversion between arithmetic and geometric mean returns.

Notes to Financial Statements (Continued)

(14) <u>Defined Benefit Pension Plan</u> (continued)

Discount Rate Sensitivity Analysis: The following table presents the Net Pension Liability of the plan using the discount rate of 7.00%, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate.

| 1% | Current | 1% |
|--|--------------|-----------|
| Decrease Di | iscount Rate | Increase |
| (6.00%) | (7.00%) | (8.00%) |
| District's proportionate share | | |
| of the net pension liability \$ 18,683,505 | 12,496,865 | 7,352,670 |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At August 31, 2024, the District reported a liability of \$12,496,865 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for the State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the net pension liability | \$ | 12,496,865 |
|---|----------|------------|
| State's proportionate share of the net pension liability | | |
| associated with the District | | 17,446,205 |
| | – | 20.042.070 |
| Total | \$ = | 29,943,070 |

The net pension liability was measured as of August 31, 2022 and rolled to August 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1 2022, through August 31, 2023.

At August 31, 2023, the District's proportion of the collective net pension liability was 0.000181930, which was a decrease of 0.000036274 from its proportion measured as of August 31, 2022.

Notes to Financial Statements (Continued)

(14) <u>Defined Benefit Pension Plan</u> (continued)

Changes Since the Prior Actuarial Valuation: The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a cost of living adjustment ("COLA") to retirees which was approved during the November 2023 election which will be paid in January 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

For the year ended August 31, 2024, the District recognized total pension expense of \$4,755,286. Of the total pension expense, for the measurement period ended August 31, 2023, the District recognized pension expense of \$2,634,226 and revenue of \$1,305,535 for support provided by the State.

At August 31, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | - | Deferred Dutflows of Resources | Deferred Inflows of Resources |
|---|----|--------------------------------------|-------------------------------------|
| District contributions subsequent to the | | | |
| measurement date | \$ | 1,017,713 | - |
| Differences between expected and | | | |
| actual experience | | 445,268 | 151,323 |
| Changes in assumptions | | 1,181,959 | 289,252 |
| Net difference between projected and | | | |
| actual earnings on pension plan investments | | 1,818,597 | - |
| Changes in proportion | _ | 1,657,483 | 1,709,908 |
| Total | \$ | 6,121,020 | 2,150,483 |

Notes to Financial Statements (Continued)

(14) <u>Defined Benefit Pension Plan</u> (continued)

The \$1,017,713 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in year ended August 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Measurement Year Ended August 31, | |
|--------------------------------------|------------|
| 2024 | \$ 658,756 |
| 2025 | 383,860 |
| 2026 | 1,601,556 |
| 2027 | 458,133 |
| 2028 | (149,481) |

(15) Defined Other Post-Employment Benefit Plans

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program ("TRS-Care"). It is a multiple-employer, cost-sharing, defined Other Post-Employment Benefit ("OPEB") plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code, Chapter 1575. The Board of Trustees is granted authority to establish basic and optional group insurance coverage for participants as well as amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <u>http://www.trs.texas.gov/Pages/about_publications.aspx</u>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Notes to Financial Statements (Continued)

(15) <u>Defined Other Post-Employment Benefit Plans</u> (continued)

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates

| G | ľ | Medicare | Non- Medicare |
|--|----|----------|------------------|
| Define a Consistent Constant | ¢ | 125 | 200 |
| Retiree or Surviving Spouse | \$ | 135 | 200 |
| Retiree and Spouse | | 529 | 689 |
| Retiree or Surviving Spouse and Children | | 468 | 408 |
| Retireee and Family | | 1,020 | 999 |

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and these is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75% of each active employee's pay for fiscal year 2023.

Notes to Financial Statements (Continued)

(15) Defined Other Post-Employment Benefit Plans (continued)

The following table shows contributions to the TRS-Care plan by type of contributor.

ð

| | Contributions Rates | |
|---|---------------------|---------------|
| | Plan Fiscal Year | |
| | 2024 | 2023 |
| - | | |
| Active Employee (Members) | 0.65% | 0.65% |
| Non-Employer Contributing Entity (State) | 1.25% | 1.25% |
| Employers (District) | 0.75% | 0.75% |
| Federal/Private Funding Remitted by Employers | 1.25% | 1.25% |
| | Ť | |
| | | Contributions |
| | | Required and |
| • () · | _ | Made |
| | _ | |
| Member (Employees) | \$ | 162,968 |
| Non-Employer Contributiong Agency (State) | | 278,699 |
| District | | 257,344 |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to regardless of whether or not they participate in the TRS Care OPEB program. When hiring a TRS retiree, employers are required to pay to TRS Care a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the nonemployer contributing entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were reappropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the total OPEB liability to August 31, 2023.

The actuarial valuation was determined using the following actuarial assumptions:

Notes to Financial Statements (Continued)

(15) <u>Defined Other Post-Employment Benefit Plans</u> (continued)

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023: rates of mortality, retirement, termination and disability; general inflation, and wage inflation.

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

Additional Actuarial Methods and Assumptions:

Notes to Financial Statements (Continued)

(15) <u>Defined Other Post-Employment Benefit Plans</u> (continued)

Discount Rate. A single discount rate of 4.13% was used to measure the total OPEB liability. There was an increase of 0.22% in the discount rate since the previous year. Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the single discount rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2023 using the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the total OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (4.13%) in measuring the total OPEB liability.

| | 1% | Current | 1% |
|--------------------------------|--------------|---------------|-----------|
| | Decrease | Discount Rate | Increase |
| | (3.13%) | (4.13%) | (5.13%) |
| District's proportionate share | | | |
| of the total OPEB liability | \$ 7,145,412 | 6,066,787 | 5,186,603 |
| | | | |

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At, the District reported a liability of \$6,066,787 for its proportionate shares of the TRS's total OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the total OPEB liability, the related State support, and the total portion of the total OPEB liability that was associated with the District were as follows:

| District's proportionate share of the collective total OPEB liability | \$ 6,066,787 |
|---|---------------|
| State's proportionate share of the total OPEB liablity that is associated with the District | 7,320,511 |
| Total | \$ 13,387,298 |

Notes to Financial Statements (Continued)

(15) <u>Defined Other Post-Employment Benefit Plans</u> (continued)

The total OPEB liability was measured as of August 31, 2022 and rolled forward to August 31, 2023, and the total OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the total OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023

At August 31, 2023, the employer's proportion of the collective total OPEB liability was 0.000274040, compared to 0.000311229 as of August 31, 2022.

The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

| | | Current Single | |
|--------------------------------|--------------|----------------|-----------|
| | 1% | Healthcare | 1% |
| | Decrease | Trend Rate | Increase |
| District's proportionate share | | | |
| of the total OPEB liability | \$ 4,995,695 | 6,066,787 | 7,444,750 |
| | | | |

Changes Since the Prior Actuarial Valuation: The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

• The single discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by a revised demographic and economic assumptions based on the TRS experience study.

There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2024, the District recognized an OPEB benefit of \$2,655,527. Of the total OPEB benefit, for the measurement period ended August 31, 2023, the District recognized an OPEB benefit of \$1,564,971 and revenue of \$286,849 for support provided by the State.

Notes to Financial Statements (Continued)

(15) Defined Other Post-Employment Benefit Plans (continued)

At August 31, 2024, the District reported its proportionate share of the TRS-Care's deferred outflows of resources and deferred inflows or resources related to OPEB from the following sources:

| | Deferred Outflows of | Deferred Inflows of |
|---------------------------------------|-------------------------|------------------------|
| | Resources | Resources |
| District contributions subsequent | | |
| to the measurment date | \$ 257,344 | - |
| Differences between expected and | | |
| actual experience | 274,476 | 5,104,052 |
| Changes in assumptions | 828,072 | 3,714,854 |
| Net differences between projected and | | |
| actual investment earnings | 2,621 | - |
| Changes in proportion | 2,691,075 | 2,150,755 |
| Total | \$4,053,588 | 10,969,661 |

The \$257,344 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in year ended August 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Measurement Year Ended August 31, | |
|--------------------------------------|----------------|
| 2024 | \$ (1,560,090) |
| 2025 | (1,281,835) |
| 2026 | (905,124) |
| 2027 | (1,096,638) |
| 2028 | (887,739) |
| Thereafter | (1,441,991) |
| | |

Notes to Financial Statements (Continued)

(16) <u>Retiree Medicare Part D Coverage</u>

Federal legislation enacted in January 2006 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One provision of the law allows TRS-Care to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible participants. Federal contributions to TRS made on behalf of the employees for the years ended August 31, 2024, 2023 and 2022, were \$137,524; \$123,843; and \$95,173; respectively.

(17) <u>Contingencies</u>

The District participates in a number of federal award programs. Although the programs have been audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* through August 31, 2024, these programs are still subject to financial and compliance audits by grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

The District is involved in various claims and legal actions in the ordinary course of business. In the opinion of management, the ultimate outcome of these claims will not have a material adverse effect on the District's financial position.

(18) Economic Dependency

During the year ended August 31, 2024, the District received approximately 50% of its revenues from the State of Texas.

(19) Adjustments to and Restatements of Beginning Balances

During the current year, the District determined that amounts due under the National School Lunch and Breakfast programs at September 1, 2023 were understated by \$144,253. Accordingly, an adjustment of \$144,253 was recorded to increase beginning net position and fund balance for other governmental funds. Additionally, the ARPA ESSER III special revenue fund that was previously reported as a major fund is now reported as a non-major fund.

Notes to Financial Statements (Continued)

(19) Adjustments to and Restatements of Beginning Balances (continued)

Change to or within the financial reporting entity and an error correction resulted in adjustments to and restatements of beginning net position and fund balances, as follows:

| Subsequent Event | | | | |

(20) Subsequent Event

Subsequent to year end, on September 15, 2024, the District issued Series 2024 Unlimited Tax School Building Bonds in the amount of \$91,365,000. The bonds will be used for acquiring, constructing, renovating, improving and equipping school facilities in the District and to pay the costs associated with the issuance of the bonds.

(21) Authoritative Pronouncements Not Yet Effective

A summary of pronouncements issued by the Government Accounting Standards Board ("GASB") which may impact the District but are not yet effective follows. The District has not yet determined the effects of the adoption of these pronouncements on the financial statements.

Notes to Financial Statements (Continued)

(21) <u>Authoritative Pronouncements Not Yet Effective</u> (continued)

<u>GASB Statement No. 101, Compensated Absences (issued June 2022)</u> – the objective of this statement is to better meet the information needs of the financial statements users by updating the recognition and measurement guidance for compensated absences. The requirements of this statement are effective for financial statements for the fiscal year beginning September 1, 2024.

<u>GASB Statement No. 102, Certain Risk Disclosures (issued December 2023)</u> – the objective of this statement is to provide users of the government financial statements with information about risks related to a government's vulnerabilities due to certain concentrations or constraints that is essential to their analyses for making decisions or assessing accountability. The requirements of this statement are effective for financial statements for the fiscal year beginning September 1, 2024.

<u>GASB Statement No. 103, Financial Reporting Model Improvements (issued April 2024)</u> – the objective of this statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement also addresses certain application issues. The requirements of this statement are effective for financial statements for the fiscal year beginning September 1, 2025.

Note to Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund

Year Ended August 31, 2024

(1) <u>Budgetary Information</u>

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, the child nutrition fund, and the debt service fund. Budgets are not legally adopted for capital projects funds; however, specific projects are individually approved by the Board of School Trustees. There is no legal requirement to adopt a budget for the instructional materials allotment special revenue fund; therefore, presentation of budgetary comparison information is not required.

There was an approximately \$3.0 million difference between the original budget and the final amended budget for total expenditures of the general fund. The primary differences consisted of approximately \$1.9 million for construction costs on ongoing projects, \$0.6 million and \$0.4 million for additional instructional and school leadership costs due to realignment of personnel within the District, and \$0.2 million for additional student transportation costs as a result of increased payroll and benefits under the new contract effective October 2023.

Expenditures in the general fund exceeded appropriations for food services (\$6,764), facilities maintenance and operations (\$126,273), and principal and interest on long-term debt (\$102,470) primarily related to renovation costs from wind damage that were in excess of budgeted amounts and principal and interest payments that were required due to GASB 87, *Leases*. These over-expenditures were funded by other functions that were less than budgeted amounts in the general fund.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of School Trustees La Vega Independent School District:

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of governmental activities, each major fund, and the aggregate remaining fund information of La Vega Independent School District (the "District") as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated , 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

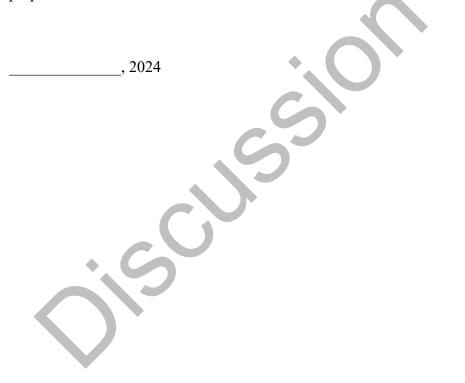

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Board of School Trustees La Vega Independent School District:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the compliance of La Vega Independent School District (the "District") with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget ("OMB") *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("*Government Auditing Standards*"); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

August 31, 2024

(1) <u>Basis of Presentation</u>

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of La Vega Independent School District (the "District") under programs of the federal government for the year ended August 31, 2024. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

(2) <u>Summary of Significant Accounting Policies</u>

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

(3) Indirect Cost Rate

Indirect costs amounting to \$389,622 were claimed by the District for the year ended August 31, 2024, using the District's restricted indirect cost rate of 5.641% or unrestricted indirect cost rate of 13.309%, as applicable.

(4) <u>Reconciliation to Financial Statements</u>

Following is a reconciliation of the schedule of expenditures of federal awards to total federal program revenues per the statement of revenues, expenditures and changes in fund balances – governmental funds for the year ended August 31, 2024:

| Expenditures per Schedule of Expenditures of | | |
|---|----|-----------|
| Federal Awards | \$ | 7,472,908 |
| SHARS revenue | | 102,546 |
| Other shared services arrangement revenue | | 216,562 |
| Federal subsidy for debt service | _ | 396,832 |
| Total federal program revenues per Statement of | | |
| Revenues, Expenditures and Changes in Fund | | |
| Balances - Governmental Funds | \$ | 8,188,848 |
