August 2019 Recap

We got off to another great start for the 2019-2020 school year! We served 22,128 meals. Last month we did \$9,521.20 in a la carte sales which equates to 3,401 meals, and we did \$2,169.17 in catering sales. We had some great new concepts rolling out this year, including our new food trailer, grab and go station at BHS, and our new deli station, complete with a conveyor oven for toasting! Participation continues to rise week to week, and we expect to see this trend continue in September.
