Agenda Item Title: Policy 606.5 Library Materials

Time Allotted: 0 - Consent Agenda

Strategic Plan Areas of Focus: Operational Effectiveness

Purpose: Following the School Board's discussion of Policy 606.5, revisions were made to the reconsideration appeal process for further Board consideration. The revised language allows a requestor to appeal a review committee decision to the School Board while limiting the Board's review to whether the reconsideration process was conducted in accordance with district policy and procedures. The revised language does not provide for a re-evaluation of the instructional material itself. (Green line version is first draft, red lines is our updates).
