EVENT	DATE
High School Students Pick up schedules auditorium	8-14-06, 8-15-06
Teachers Return	8-14-06
Start of School for Students	8-21-06

Principal's General Narrative:

We are busily preparing for the new school year. I feel like we had a very good year last year but our goal this summer has been to really look at all areas and see where we can improve. As we get back to school the focus will be to work as a team to make changes that will allow us to better serve our students. One area that we are really going to work on is communication with parents. We believe that increased efforts in this area will especially help us serve our at-risk students who might be struggling.

I and all the members of the high school and junior high faculty appreciate the time, effort, and wisdom that school board members give on our behalf. We recognize that without the great leadership from the school board and Mrs. Renken our direction of continued and greater success would not be possible.
