

Minidoka County School District

# Transportation's Report

## June 30, 2017

Love this nice toasty weather!!!!

Summer school is alive and kicking.

This year for summer school we are running 11 buses. Due to the fact that the students are all over the county it's almost like the regular school year. The drivers that are doing summer school are our die-hard people. I just love them to pieces.

I just love summer school - we have only had 5 bus citations this year so far (keeping my fingers crossed). They range from writing on the bus seats, hitting another student, to walking up and down the aisle of the bus while the bus was moving.

We have one of our ladies washing buses this year. She scrubs the inside and the outside and makes them look amazing, so the drivers have clean buses to start the new school year. Thanks Vanessa Baker you rock.

Kay Buerkle and I went to Boise last week to the Idaho Association of Pupil Transportation Conference. The classes were awesome, and we brought back a lot of great information that we will be implementing in our training this year. We also learned how to better present when we have our meetings and how to do a better PowerPoint presentation.
