What is the Global Read Aloud

Importance Of Digital Citizenship

"A citizen in this digital society is able to get an education, work, buy, sell, trade, interact with others, and be entertained; all of the same characteristics of a traditional society. It is not considered acceptable to send our children into traditional society without teaching them the basic concepts of legal, ethical, and moral conduct. So why would it be okay to send them out into this digital society with little knowledge about these same concepts?"

- Hollandsworth, Dowdy, and Donovan, 2011

Good morning! I am Ernie and I want to tell you all about me! I am a student at State Street Elementary. Our school is right down the road from a lake. I like to go to the lake and swim. One time I saw a giant fish in the lake. Did you know that there is a fish called Oscar that can live up to 13 years? It is bright yellow, which reminds me that yellow is my favorite color. I like how bright and shiny it is. One time I looked I looked at the sun and it hurt my eyes. Did you see the eclipse? I think it was really neat how it got all dark and the sun disappeared for a bit. Anyways, I can't wait to blog with you and learn all about who you are. What school do you go to? Do you like spaghetti? I do, but I like macaroni and cheese better. I have a friend named Bryan who puts ketchup on his macaroni. Yuck! What do you think about that? Write back soon!

all abt lucy!
