

Discuss and Consider Approval of RFP for Network Upgrades

1. Background:

Core and Distribution areas of the District's network infrastructure is ten years old and components are now approaching end of life. The IT department conducted a review of current solutions to upgrade these areas and drafted an RFP.

2. Process:

A competitive RFP was posted through ESC12. The RFP included items that were and were not eligible for E-Rate funding. Three proposals were received and scored according to the published matrix. Stacklynk scored the highest and being recommended for award.

3. Fiscal Impact:

\$302,757.06 (Total Project Cost)

\$201,042.88 (E-Rate Reimbursement)

-----  
\$101,714.18 (Final Cost to Budget)

4. Recommendation:

The Board approve the award of RFP 240006927 to Stacklynk for network upgrades in the amount of \$302,757.06.

5. Action Required:

Board Approval
