**MORENO JUNIOR HIGH
REQUEST FOR CAPITAL OUTLAY (SUPPLIES)**

Item Description	# needed	Price per unit	Total price	Justification
Laser Printers	5	\$1,200.00	\$6000.00	Old ones need to be replaced. Our new curriculum involves making many more copies than usual. This will save money on ink being spent for desk top printer cartridges.
USB Flash Drives	25	\$18.00	\$450.00	The curriculum requires a lot of memory storage of lesson plans and other documents. This will make it easier for teachers to manage materials.
Total Requested			\$6,450.00	

**AC Jones High School
2006-2007 Capital Outlay Request**

Item	Cost	Quantity	Amount	Justification
LCD Projector	\$690	10	\$6,900	<p>Since the addition of the teacher laptops, all of our teachers are using more technology in their classrooms. They are having difficulty demonstrating lessons using and integrating technology without the projectors. AC Jones has been fortunate that the majority of our teachers have projectors. The addition of these ten projectors would allow all teachers to incorporate technology in their lessons. Students would benefit from the projectors by seeing power points rather than listening to lectures, utilizing hands on activities, presenting their own projects to the whole class, etc.</p>
Desktop Computers	\$1,200	10	\$12,000	<p>The only computer lab at the high school is housed in the library with only 18 working computers. With class sizes up to 28, teachers are not able to utilize their time in the computer lab to the fullest potential due to sharing of computers. In addition to research, other benefits to students would be using TAKS software to prepare them for the TAKS test, typing their papers, completing PowerPoint projects, and using additional computer software and programs to incorporate in their class assignments.</p>
SLEEK IT Testing Software (TAKS)	\$13,500	1	\$13,500	<p>The need to improve test scores is crucial at the high school. This software would provide all four core area teachers a tool to help assess student's progress.</p>
Poster Maker, Paper, Ink, and Training	\$6,654	1	\$6,654	<p>The high school is on a quest to help students improve in all aspects of their school work and life. Inspirational and informative posters have already been created to post around the school and in the classrooms. The cost of these posters is increasing. Having a poster maker on campus would also help the teachers make information such as class rules, procedures, policies, vocabulary, and content concepts visible for all students.</p>
TOTAL			\$39,054
