Summary: **The budget has been updated with necessary adjustments as actual pricing is determined for 2025-26 services.**

Background Information: **We have developed budget scenarios with two different spreadsheets that are available to project revenue for the 2025-26 school year and beyond.**

One developed by MoakCasey (newly developed this year) and the other from Region 13 that we have used in all past years and has been used for many years by districts throughout the state.

Both of these show that the district will be able to sustain the approved salary schedules for the district. Additionally, they project we will end the 2025-26 school year with an increase to fund balance.

All of these projections are based on growth in student population (based upon current demographic projections) with varying levels of growth in special populations such as special education, bilingual, CTE, compensatory education. Property values have also been projected to increase as housing developments continue to grow.

At this time the projected property tax collections will be the most difficult aspect to project as we will see continued losses in frozen tax collections due to the increased homestead and over 65 exemptions passed in the recent legislative session. We will receive certified property values by the 25th of July.
