**RE: Replace one Boiler circulation pump at two locations (two pumps)
Attn: Greg Harris**

Premistar Mechanical Services proposes to provide and install the following:

- Close isolation valves on each side of the pump.
- Isolate and remove electrical.
- Unbolt and remove defective pump.
- Install new B&G Ecocirc XL 70-145 (2hp) pump at two locations.
- Install existing electrical.
- Program each pump for proper operation.

Price for the above: \$7,000. Each pump. \$14,000. total to replace both pumps. \$500 for factory program and start up. (we can do this, but it may be good to have factory do this because you have had many of these pumps go bad. Maybe they will see an issue as to why they are going bad. This will be a total of four bad pumps on these boilers.)

Terms: We would be more than happy to negotiate increased complexity and/or capability, as well as reductions in current scope/cost to fit into your budgeting criteria. This price shall remain firm for a period of 30 days **except that, due to the instability of raw materials and energy markets, we may be required to apply a surcharge for unforeseen cost increases between the proposal date and the acceptance date.**

TERMS OF PAYMENT: Balance net 30 days upon completion

Warranty: 1-year parts and labor against defects in workmanship per vendor terms.

Clarifications / Work Not Included / Qualifications: This proposal is based on our initial inspection and does not cover building permits, licenses, fees, drawings and/or architectural/engineering services that might be required by local municipalities or other governmental units or agencies, overtime, additional parts, labor, or repairs that may be required after the work has been started. After the work has been started, worn or damaged parts that were not evident on the initial inspection may be discovered. Naturally, this proposal cannot cover such contingencies. Price is firm for 30-days. All terms and conditions from RMC Mechanical Services proposal form apply.

Thank you for your confidence in Premistar Mechanical Services and for the opportunity to be of service to you. If you have any questions, please feel free to contact me at 708-927-6260.

Sincerely,
