Wish we would have had longer with her Good information on SBC time line of expectations which will shape how the locals i don't think we really gained knowledge on better ways of leaching but we did gain a lot of knowledge on what is coming as far as prepare. assessments and the changes we have to make in our teaching - i There wasn't really anything new that we heard from her. the wordings and types of questions I will Iry to ask students. Trying to ask higher DOK levels... I am making a word/wall/ poster with key words from the circle graphic. Need more time to dig into the Common ...

DOK levels matrix will be useful when planning lessons. Facilitating this session, I was more than adequately prepared thanks to a one on one sit down with an MISD itinerant AND an admin, meeting with a focus on PD session preparation. we would benefit from more examples seemed as though the presenter was not fully prepared and read the "script". Sometimes it is hard to buy into things when they come across not practiced or known. Would have been nice for the 4/5 to have both the ELA and Math examples in front of them.

I had the best presenter EVER! He did a great job helping us come to an under ...

Wish I had brought along my laptop to use during this session!! *maybe a note ahead of time to give us that option* would have been helpful, but she did have copies. We again didn't learn about leaching but about what is going to be the changes in assessments for sped. I liked the CCSS folders that they passed out. I was hoping the session would be on practicing and learning HOW to write some of the HIGHER order questions. I did not get much from this session. I was hoping that the session would revolve more around ways to implement higher order questioning in the classroom, rather than justifyi....

Wonderful resources! Poverty greatly influences many children in our school. I would like to have more sessions and information in this area. Ordered the books for our staff. Librarian will be checking library to see which books we have. This was very motivaling. Thanks Kim! I liked the fact that we had some updates from Jim Scranton and Missy Amor. Really made me thing about several of my students and what they are coming in with. It amazes me how much I truly take for granted and don't realize how different and difficult some of the things my students have to endure. EYE OPENING in may way

Please indicate topics for follow up sessions that you would attend.

Math instruction on dok Gathering and interpreting data for SWBAC lests and/or NWEA lests (if applicable) More on smarter balanced Smarter balance: Technology and preparation (continued DDK) I would like to have a session that allows the sped teachers to create accommodation reference guides, cheat sheets, Intervention boxes, instructional manuals, etc for genied leachers. I would like to see a session to talks about what is expected of sped leachers in an inclusive setting - a guest speaker from grand valley where they focus on leaching inclusion or somewhere else. Different inclusion mode ...
