Re: Property Update

The following is an update on our school buildings:

Bradley

The building control system needed adjustments and modifications by an outside contractor.

Emergency lights were replaced.

Irving

Adjustments were made to the heating systems in many classrooms to optimize comfort.

Several leaks in the steam heat loop where repaired.

Stairway wall was repaired

Derby High School

Hallway heater failed and was repaired.

The trainer's room was prepared a wall was erected minor wiring remains.

Derby Middle School

The power supply for the fire panel was replaced.

Building Management System required adjustments by a contractor.

Respectfully submitted by,

David M. Nardone, Facilities Manager
