Consider Approval of an Interlocal Government Agreement with the City of Webster for Fill Dirt for Development Within the City

**Background:**

In response to the City of Webster’s request for select fill material to support its new amphitheater project, we will provide the city approximately ±175,000 cubic yards of select fill from the district’s detention area located behind Challenger Columbia Stadium. This effort also advances prior discussions regarding improvements to the district’s detention facility through the development of a wet-bottom detention system, which is expected to reduce long-term maintenance costs, increase overall stormwater detention capacity, and enhance drainage conditions in the area.
