## Project Status Report

12/2/22

Courthouse Sanitary Sewer – I have made contact Tim Cramer from Environmental Excavating and materials have arrived on site. Work is to be completed on 12-5-22.

Courthouse Boiler Repair – Project is complete. Boiler is up and running.

Fairgrounds shed/tools for caretaker – All construction is complete and tools have been purchased. I will inventory and have the caretaker sign for them.

Accident damage to center restrooms at the Fairgrounds – Insurance money has been received and an expense account line item number has been set up to pay bills from. Block work will be completed this year. Fence repairs will not be completed until spring. Restroom partitions have been ordered. A portion of the money for this project will need to be carried over to 2023 budget.

Tower project for 911 – Waiting to hear more on this project.

Courthouse & Annex Roofs- Work started on the Annex on 9/13/22. Courthouse roof and upper portion of the Annex roof is done. Work is being done on the lower portion of the annex building as court schedule and weather permits. Lower part of the Annex is approximately 80% complete.

Pool water flow Meter – Health Department has said that waiting to replace the meter until after the first of the year is acceptable.

Annex restroom improvements – Work has been started.

Fairgrounds Electrical Layout- Wiring layout has been mapped out and Equalization Department has mapped it out in their system.

Flooring for the Annex and DHD – Bids due 12-2.
