Terms & Conditions

(1) QUOTE

- A. Company has or will purchase used Apple and other products and Devices (the "Devices") from Customer as set forth in a quote or purchase order (the "Quote"). Quotes are valid for 30 days.
- B. The Quote is based upon Device model specifications with the assumption that the Devices are in Grade A condition. Pricing may be revised if Devices differ from specifications, are missing components, or contain non-OEM parts.
- C. Devices with negative value are deemed "Disposition Devices" and will be charged a disposition fee.

(2) PICKUP / MAIL-IN

- A. Company will provide single-location pickup or mail-in service depending on Device quantities. Additional costs may apply for multi-location pickup or changes in logistics outside the original Quote.
- B. Risk of loss transfers to Company once Devices are loaded onto the freight carrier or delivery service. Title transfers to Company upon arrival at Company's facility. Devices will not be returned once ownership transfers.
- C. Any return of Devices to the Customer or school will be shipped at the Customer's expense, including any handling or processing costs.
- D. Devices must be received at Company's facility on or before any applicable pickup/mail-in expiration date. Pricing may be revised at Company's sole discretion for Devices received after that date.
- E. If Company performs services in advance of, or in anticipation of, receiving Devices (including but not limited to disposition preparation, tagging, asset labeling, packaging, case installation, or other related services), and the quantity of Devices ultimately received is materially less than anticipated or represented by the Customer, Company reserves the right to assess a service fee. Any such fee shall be determined by Company based on the scope, complexity, and volume of work performed, and shall be the responsibility of the Customer.

(3) EVALUATION AND FINAL REPORT

- A. Customer shall remove all Locks and Restrictions prior to pickup or mail-in. Failure to do so will be resolved pursuant to Exhibit A.
- B. Company will evaluate and grade Devices, inspect accessories, and apply deductions where necessary. Non-functional Devices will be recycled to R2v3 standards and/or through industry-accepted downstreams.

(12) SEVERABILITY

If any provision is deemed invalid, the remaining provisions remain enforceable.

Certifications

R2v3 Certification

R2v3 Certification

Revised from the previous standards, this updated certification requires that we recycle and dispose of all electronic equipment following the highest standards for environmental protection, data privacy and wiping, as well as facility and workforce safety. This certification is rigorously and independently audited, emphasizing quality, safety, and transparency.

Why the R2v3 Certification Matters

Data Sanitization

- The certification requires the complete sanitization of all personal data from devices.
- Reduces risks and brand damage by ensuring there is no breach of data.
- R2v3 aligns with privacy laws such as FERPA (Family Educational Rights and Privacy Act) and COPPA (Children's Online Privacy Protection Act).

Transparency

- All certified organizations who handle the recycling or refurbishing of devices are required to provide proof of data destruction.
- Annual audits verify we are adhering to industry best practices for data security, sanitization, and electronics sustainability as established in the R2v3 standard.

Environmental Protection

- We are required to reuse electronics when possible and to recover materials that are recyclable (even when it costs more to recycle than to dispose of the equipment).
- We are accountable for our downstream control of the recycling chain.
- R2v3 minimizes environmental and public health risks.

ISO Certification

ISO 9001

The ISO 9001 focuses on customer satisfaction and provides requirements for an organization's Quality Management System (QMS).

ISO 14001

The ISO 14001 certification focuses on environmental management systems, which allows us to have full visibility of our environmental impact.

ISO 45001

The ISO 45001 certification focuses on the occupational health and safety of our team.

Important Quote Details

Offer & Acceptance

A new or updated quote may be required if this offer is not accepted within 15 calendar days. If the expected land date of the product to the Tech Defenders' facility is more than 15 calendar days from the acceptance date of this quote, Tech Defenders may provide a new quote due to market fluctuations of more than 10% and will be sent no less than 30 calendar days before product availability.

Grade A Total Maximum Payout

The Grade A Total Maximum Payout is calculated using our Grade A price for all of your devices. Devices are assigned a grade A if they are in like-new, out-of-box condition.

Average Historical Estimated Payout

The estimated payout reflects the grading we typically observe in an average working environment. This includes a majority of C-grade devices mixed in with some B-grade and D-grade devices as well.

Guaranteed Minimum Payout

Guaranteed minimum is calculated using the quoted device quantity; if the actual number of devices received is different from the quoted, then the guaranteed minimum will be adjusted accordingly. Guaranteed Minimums only apply to batches with 20% (or less) fails and locks unless otherwise specified. This does not include White Glove or Recycling charges.

Community Purchase Program

Our Community Purchase Program is a hands-off solution for selling devices back into your community for either organization or personal use, all online and at a guaranteed discount. Any customer undergoing a direct buyback with Tech Defenders will be eligible to resell their bought back devices - Ask your rep for more details.

Payment Method

Check, ACH or Credit

Tech Defenders will send the total payment after the report has been sent and reviewed. Your Buyback Representative will confirm the payment preference and address, if a check is preferred, on where it should be sent. Tech Defenders also offers credit options in lieu of standard payout via check or wire. Credit can be issued to one of our trusted partners to purchase future devices, parts or accessories. For more details on credit, contact your representative.

Peak Season Turnaround Time

Tech Defenders provides a standard turnaround time of up to 60 days for device audit and grading once equipment is received at our processing facility. During peak season (June through September), turnaround times may extend to up to 120 days from receipt.

Devices identified as locked during processing will be placed into a Lock status. Any time an order remains in Lock status will pause the applicable SLA, and the SLA timeline will resume once the lock issue is resolved.

Terms and Conditions

Audit and Condition of Devices

Quotation amount is determined in Tech Defenders' sole discretion by condition of devices (A-F) paired with quantity, and accessories provided.

All data is removed from equipment by Tech Defenders per R2v3 standards.

Should a device arrive inaccessible (damaged, locked, broken) Tech Defenders may send the device to an R2V3 certified partner for recycling. Should a device be received that is beyond value recovery (i.e. too old or obsolete to resell), Tech Defenders may send the device to an R2V3 facility. In either event, the Client will be paid fair market value for the assets, and Tech Defenders will provide a blanket certificate of data erasure. Blanket certificates of data erasure may not include a serialized list.

Deductions are made on a per device basis, pending evaluation of engraving, accessories (if applicable), and firmware locks.

Tech Defenders does not have the ability to unlock devices. In the event any portion of an order is received in a Lock Status, and remains locked for more than 15 days, the entire order is subject to repricing at Tech Defenders current market value.

Lock Statuses include, but are not limited to Google Admin locks, Mobile Device Management locks, EFI/BIOS locks, Apple Activation locks, or Passcode/User Level locks.

Tech Defenders will work with Client to resolve lock issues, up to and including collecting serials of locked devices. A fee of \$1.50 per device will be applied for serial collection.

In the event that units are missing vital components, these units will receive \$0 payout value upon reconciliation unless otherwise stated in the agreement. Vital components may include (but are not limited to): LCD, Digitizer, Motherboard, Battery, Keyboard, and Trackpad

Any device that is received that was not originally quoted will receive Tech Defenders' standard market rate pricing. This pricing will be non-negotiable

Tech Defenders reserves the right to pre-sort devices that are visibly damaged as D or F grades. Devices pre-sorted will receive a blanket certificate of data erasure. Blanket certificates of data erasure may not include a serialized list.

Marketing & Publicity Rights

Client grants Company a non-exclusive, royalty-free, worldwide right and license to use Client's name, logo, and other identifying marks solely for the purpose of referencing Client as a customer of Company in marketing materials, presentations, proposals, case studies, websites, and other promotional content. Client may revoke this permission at any time upon written notice, and Company shall make commercially reasonable efforts to remove such references within thirty (30) days of receipt of the notice.

Transit Options

Tech Defenders will take responsibility to provide packaging materials and instructions, as well as coordinate the shipping and/or pickup details. Important Note: If products are received to Tech Defenders more than 30 days after the Signature Date, Tech Defenders reserves the right to re-price at Tech Defenders Current Market Value.

Tech Defenders will also incur all costs associated with the shipping process unless otherwise agreed upon.

The Client will have the product packaged and ready to ship prior to the 'Valid Until' date listed on the agreement. If the product is not shipped on or before the 'Valid Until' date, Tech Defenders reserves the right in its sole and absolute discretion to adjust pricing based on the current market rates. Tech Defenders will provide the shipping service and schedule a pick up of the product accordingly, but it is the Client's sole responsibility to ensure that the devices are ready to ship per Tech Defenders instructions.
