BOARD OF EDUCATION
Bloomington, Illinois
Regular Meeting June 24, 2019

FOR ACTION

Subject: Resolution in Support of Roselle's Community Vision Project

I have reported to you through the Thursday Letter that the Village of Roselle wishes to engage in a community visioning process in order to generate greater community interest and support for strategic plan goals and for the continued growth of the community. The Village is utilizing a third party facilitator to develop this project and the other units of local government that are in Roselle, or are connected to Roselle, have been included in this opening idea development phase.

I support the Resolution as published in the Board packet this evening, as it does not commit the District to financially supporting the Village of Roselle in this process. District 13, through the passage of this resolution, indicates that it supports Roselle in their efforts to develop a community vision and that there is a willingness to participate in the process in every way, except through an expressed financial commitment.

Recommendation: The Board approve the Resolution in Support of Roselle's Community Vision Project, as attached.
