Re: Board Policy Update FDA (Local)

In an effort to provide the district with flexibility regarding the transfer of employee's children to CISD schools, the district is requesting the following be added to FDA (Local)

"In accordance with administrative regulations, a student who has been admitted under this provision shall be permitted to remain enrolled for the subsequent school years with approval by the Superintendent or designee."

An appropriate motion is as follows:

"The Board add language to Board Policy FDA (LOCAL) as presented."
