Price List (Texas)

TAKS Preparation Products

- Each section may be purchased separately.
- School licenses give all your students in your school building access to the material for 1 year.
- A local sales rep is available for a free in-school demonstration.
- **On-site Training:** An on-site training session for your teachers costs \$200 plus travel time, which is \$30 per hour of driving. If the trip requires an overnight stay, an additional \$100 in hotel fees will be applied. The training session lasts up to 2 hours.
- **Online Training:** An online training session via BeamYourScreen costs \$100. Your school is responsible for setting up a classroom with a computer, a projector, and a speakerphone. The training session lasts up to 1 hour.
- District level purchases for multiple schools may qualify for district level discounts.
- **Spanish versions** of the math and reading products in grades 3 through 6 are **free** with the purchase of the corresponding English versions.

Call 1-800-419-3191 or email sales@studyisland.com for purchasing instructions.

*** State Assessment Preparation Program:**

- For multiple school purchases within a district and district-wide purchases, please price each building individually. Multiple building purchases may be eligible for district level discounts. Please call for details: 1-800-419-3191.
- Prices with an asterisk are per student prices which are sold in increments of 50 students with a minimum purchase of 500 students per grade level and school building.

STUDY ISLAND

www.StudyIsland.com/TX
800-419-3191 ~ sales@StudyIsland.com

The Study Island TAKS program is designed specifically to improve students' TAKS scores by helping students master the content specified in the Texas Essential Knowledge and Skills (TEKS). Study Island's focus on the TEKS enables students to improve their performance in all skill areas tested on the TAKS (grades 3-11), which leads to improved test scores. Study Island also offers pre-TAKS for 2nd grade, Spanish versions for Math & Reading in grades 3-6, and off-grade Science for grades 2, 3, 4, 6, and 7.

The user-friendly interface enables students to move through the program step-by-step. Each section (5th grade math, for example) has a pretest and a post test, along with topics that cover each of the TEKS. Topics consist of questions, answers, explanations, and lessons that address the specific skills contained in the TEKS.

Topic	Score	Score Out	Score In
1. Number and Operations - Base Ten	100%	100%	100%
2. Number and Operations - Fractions	100%	100%	100%

20. Number and Operations - Other	100%	100%	100%

WEB-BASED

Study Island requires no software installation and is accessible simultaneously to all students. Students can use it at school, home, or anywhere with an Internet connection.

ITEMS SIMILAR TO TAKS

The Study Island program includes questions that are similar in style to the actual TAKS. This helps provide teachers and administrators with an accurate benchmark of student progress.

IMMEDIATE FEEDBACK AND BUILT-IN REMEDIATION

Upon answering a question incorrectly, students are shown the correct answer along with a detailed explanation for the correct response.

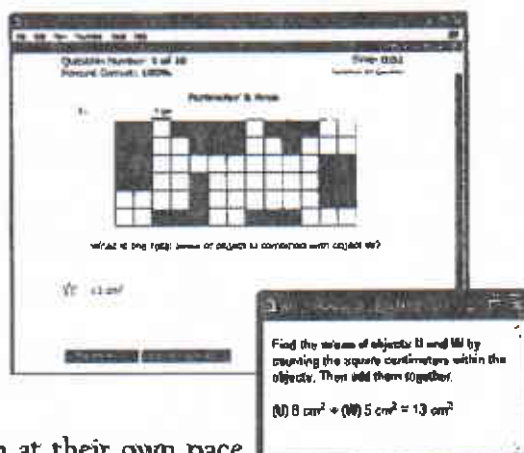

When students need extra help on a specific topic, Study Island can automatically prompt them to work on remedial-level material for that topic.

SELF-PACED OR TEACHER GUIDED

Study Island is designed to allow students to learn at their own pace.

The amount of time a student spends on a skill depends on that student's performance.

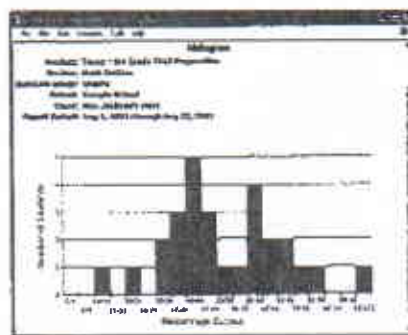

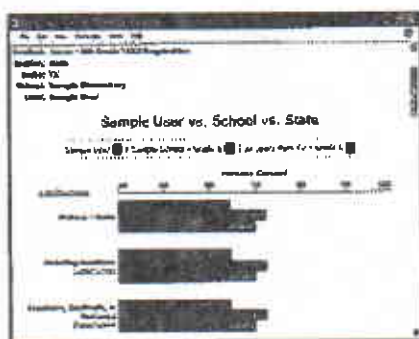

The custom teacher page gives teachers the option of guiding students through the program by communicating their expectations to students and creating class assignments.

www.StudyIsland.com/TX
800-419-3191 - sales@StudyIsland.com

REAL-TIME REPORTING

Study Island records statistics for each user session in a real-time report card. These stats measure progress and streamline the learning process. Teachers and principals have access to a private page where they can view usage statistics and results for each student or for a class. Real-time reports (including graphs) help teachers measure progress and identify deficiencies as they relate to the TEKS.

DYNAMIC CONTENT

Not only are there thousands of practice items in the Study Island program, but each item is constantly changing. The answers to the multiple choice questions are continuously changing position, and the numbers for the math questions are randomly chosen. This causes students to learn the concepts, not just memorize the answers.

STANDARD TEST MODE OR FUN INTERACTIVE GAMES

Study Island enables students to choose their style of learning. Students can work using a standard test format or several interactive games. As with many of Study Island's features, your school has the option to restrict access to the games. Printable worksheets are also available.

ONLINE TAKS PREPARATION

What teachers have to say about Study Island...

"As the chair for the English department, I would highly recommend Study Island. I don't know how you guys did it, but you have hit the jackpot with these lessons, exercises, games, and tests. Thank you for a fabulous resource."

"I have been using computers and software for over 20 years, and I truly feel that yours is the best I have seen."

"We are thrilled with the results we have seen from this program. Our teachers and students love it!"

"I have been so impressed with Study Island. There are many wonderful software and Internet products out there, but Study Island is by far the one that is the most aligned with our state's required curriculum."

"At our last meeting with the superintendent of our public schools and other board personnel, we were asked to what we attributed our successful scores... and we emphatically said Study Island!"

What the Students say...

"I love Study Island, and every school needs it."

"Study Island helped me gain more confidence."

"This is a really great way to learn. Thanks a lot!"

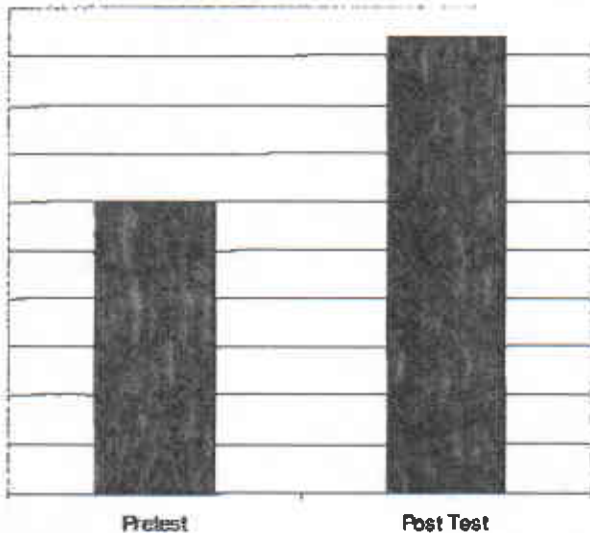

"I love Study Island. I feel that this program will improve my scores very much. Thank you very much. My teachers and I appreciate all you have done for the struggling students."

According to our recent survey, Study Island is...

Helpful - 98% of teachers feel that Study Island is helping their students.

Easy to Use - 91% of teachers and 89% of students say that the students can use Study Island without any additional help.

Enjoyable - 95% of teachers say their students enjoy using Study Island.

Study Island users average a 12.2% increase in score from pretest to post test.

Included With Your Subscription:

- Unlimited free imports of student roster data. Do it yourself, or let us do it for you!
- Unlimited school and home usage for students and teachers. We encourage you to use SI as much as possible from wherever you can access the Internet!
- Unlimited free tech support via toll-free phone, live chat, and email. We rank in the top 1% for customer service in our industry!

Please let us show you why Study Island is loved by millions of teachers, students, administrators, and parents across the country. Contact us today to set up a free demonstration at your school.

Features:

- Students simply log on to Study Island from anywhere. All they need is an Internet connection.
- Students master topics built from the **TEKS** and tested on the **TAKS**.

2007-2008 Teacher Survey

- **97.4%** say Study Island helped increase their test scores.
- **94.0%** say their students enjoy using Study Island.
- **96.1%** plan on renewing Study Island next school year.

- Each topic is built from one of the Texas Essential Knowledge and Skills (TEKS).
- Each topic contains a straightforward lesson and assessment questions with detailed explanations that provide automated instruction.
- Students can choose between traditional tests or interactive games as their learning method.
- Teachers have access to a private page where they can view detailed real-time progress reports for an individual student as well as their class as a whole, which makes it easy to identify deficiencies. In addition, teachers can compare their students' performance against other students in Texas (School Site License only).

How it works:

Our Texas programs are completely web-based. Students simply logon to www.studyisland.com to access the program. *The program is organized into topics covering all of the Texas Essential Knowledge and Skills (TEKS) that are tested on the state-mandated **Texas Assessment of Knowledge and Skills (TAKS)** in grades 3 through 12.

- The program is organized into topics covering all of the Texas Essential Knowledge and Skills (TEKS) that are tested on the Texas Assessment of Knowledge and Skills (TAKS) in grades 3 through 12.
- Upon purchasing the program, your school will receive a welcome manual which has all the instructions for accessing and using the program. We also offer in-person teacher training.
- The academic material is organized in topics which contain a lesson and assessment questions with explanations.
- For each subject (math, reading, writing, science, and social studies), the students must take a pre-test, complete all content groups covering all the TEKS, and pass a post-test in order to complete the

program.

- Teachers have access to a private page where they can view usage statistics and results for each student, a group of students, and the school as a whole. In addition, teachers can compare their students' performance against other students in Texas.

Why does it work?

- **Web-based** - Because Study Island is completely Web based, students can use it at school or home and can study and learn at their own pace. There is no software to download or install; all you need is an Internet connection.
- **Dynamic Content** - Not only are there several thousand questions in the Study Island program, but each question is also constantly changing. The answers to the multiple choice questions are continuously changing position, and the numbers in the math questions are randomly chosen. This causes the students to learn the concepts, not just memorize the answers.
- **Skills-Specific** - Study Island's lessons and practice tests are based solely on the TEKS and are specifically designed to prepare students for the TAKS. Study Island covers each and every Expectation that will be tested on the TAKS.
- **Better Than Workbooks** - Study Island offers all the benefits of workbook based programs in addition to the tremendous benefits that can only be provided by a Web based program. Unlike workbooks, Study Island enables students to interact with thousands of questions, then automatically and instantly grades and records all student work. In addition, users are able to print custom workbooks.
- **Question Style Similar to the TAKS** - The question style on Study Island is similar to the style on the actual TAKS. This allows students to get comfortable with the testing style; therefore, test-taking mistakes will be reduced and scores will improve.
- **Self-paced** - Every student learns at a different pace. Study Island allows the student to learn at their own pace.
- **Multiple Study Modes** - In addition to allowing students to learn at their own pace, Study Island lets students choose their style of learning. Students can choose between a standard test format and several interactive games for their study sessions.
- **Real-time Reporting** - Study Island records statistics for each user session in a real time report card. Teachers have access to a private page where they can view usage statistics and results for each student and the school as a whole. Real-time reports (including graphs) help teachers measure progress and identify deficiencies as they relate to the specific Expectation. Teachers and administrators can use these statistics to see how their students compare to other students in Texas.

WORKBOOKS ON CD

Life, Earth, or Physical Science CD

Bring technology into your science classroom and make learning fun and interesting. Students will love learning about science concepts as they view PowerPoint presentations projected on your board or wall. Students can easily take notes while listening to teacher explain and reinforce concepts and print notes for absent students, or students with modifications. Each CD covers all TAKS Objectives and TEKS in life, earth, or physical science through the use of vocabulary words, examples, explanations, pictures, and animations. Please specify life, earth, or physical science when ordering.

CVP CD-Science (Grades 3, 4, OR 5)

Students will love going over the pages in their CVP book as they are projected on the wall or board. Their entire CVP science workbook is contained on this CD and can be used to go over pages from their workbook, review, or print copies from your classroom computer. This CD is divided into three major categories (life, earth, and physical science) based on the tested skills. All objectives are covered, with mini-lessons focusing on each specific skill. Please specify grade level when ordering.

Ultimate 4 & 5 TAKS Math (Grades 1-6)

All math TEKS in grades 1-6 are included on this CD, and are ready to be installed on computers in your school for each grade level. Teachers can project math pages onto the wall or board to use during instruction or review, and can easily print practice pages from their classroom computers. Each practice page is skill specific in multiple-choice (TAKS) format. This CD can be used by all math teachers in your school. Includes site license.

Ultimate 4 TAKS Math (Grade 1 and 2)

All math TEKS are included on this CD, and are ready to be installed on computers in your first or second grade classrooms. Teachers can project math pages onto the wall or board to use during instruction or review, and can easily print practice pages from their classroom computers. Each practice page is skill specific in multiple-choice (TAKS) format. This CD can be used by all teachers in first or second grade. Please specify grade 1 or 2 when ordering. Includes site license.

www.TAKStest.com

Ultimate 5 TAKS Math (Grade 3, 4, 5, and 6)

All math TEKS and TAKS objectives are included on this CD, and are ready to be installed on computers in your classrooms. Teachers can project math pages onto the wall or board to use during instruction or review, and can easily print practice pages from their classroom computers. Each practice page is skill specific in multiple-choice (TAKS) format. This CD can be used by all teachers in third, fourth, fifth, or sixth grade. Please specify grade 3, 4, 5, or 6 when ordering. Includes site license.

Science Review and Assessment AVAILABLE IN SPANISH

Each section is separated in Life, Physical, and Earth Science reviews and tests. **THIS CD IS A MUST FOR ASSESSING STUDENTS AFTER EACH SECTION OF SCIENCE.** All objectives are covered in this valuable book. Includes site license.

TEKS

Set of Comprehensive Tests in all Tested Subjects

Each tested grade level will receive a set of comprehensive tests in all subjects that are tested by the state of Texas. All tests are in TAKS format and include multiple choice type questions. Math and Science test will also include grids. Third grade will receive math and reading tests, fourth grade will receive math, reading, and writing tests, and fifth grade will receive math, reading, and science tests.

Single Test-Any Subject

Let us know where your students are struggling or what you want to test for mastery. We will create a test that is specific to your needs and wants in any subject, at any grade level. The test will be in TAKS format, and can be used by the entire specified grade level. Please specify grade level and subject area when ordering. **ALSO AVAILABLE IN SPANISH!!!**

WORKSHOPS

© Science (Half-Day) (Grades 2-5)

This workshop will answer all your instructional questions to help you meet the need of your students in the science classroom. What to teach, how to teach, and when to teach type questions will all be answered. Science concepts will be modeled and specific skills will be covered. How to maximize vocabulary development and integrate content will also be on the agenda. Learn how to get all your students to pass the TAKS Science Test.

© Math (Grades K-2) and (grades 3-5)

This session will focus on students understanding numbers in the primary grades. Problem solving, basic computation, and measurement lessons will also be modeled. Find out what and how you need to teach in order to prepare your students to be successful math TAKS Test takers in the future and the present.

© Reading (Grades 2-5)

This workshop will focus on all reading objectives students must master in order to pass the TAKS test. Learn how to increase comprehension and fluency among your students, and how to teach specific reading skills, such as main idea, summarizing, sequencing, fact and opinion, and inference. Find out what else is necessary for your students to become successful readers and the secret to getting all your students to pass the Reading TAKS test.

© Writing (Grades 3-5)

This session will focus on the essential writing traits that all students need to include when expressing themselves on paper. Find out how to get your students to make sense, and write like they mean it. Learn how to teach specific grammar, punctuation and capitalization skills, and what a good complete sentence really is.

www.TAKStest.com

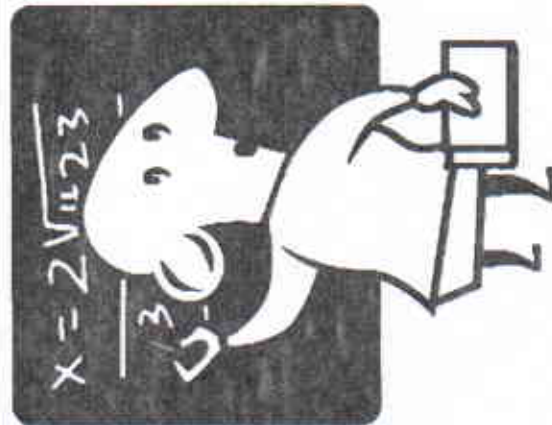

© Motivational Workshop (Half-Day)

Come listen to experienced and successful teachers talk about TAKS and how to support your students when it comes to testing and discipline. Find out the secret to becoming a RECOGNIZED, or even EXEMPLARY school. LISTEN TO HOW TO GET THE CANTS TO CANS!!!

SCIENCE WORKBOOKS

© TAKS Science Practice Skill Book (Grades 4-5) AVAILABLE IN SPANISH

Students can practice all areas of science in this reproducible workbook. Nature of Science, Earth, Life, and Physical Science Objectives/TEKS are all covered. Book is divided into 3 sections (Life, Earth, and Physical Science), in TAKS format. A complete practice TAKS science test, teacher resources, and answer key are provided.

© Science TAKS: Content, Vocabulary, and Practice (Grades 3, 4 or 5) AVAILABLE IN SPANISH

This is the ultimate resource for the fifth grade TAKS Science test. This workbook includes supplemental material to prepare students for the TAKS Science Test. It is divided into three major categories (Life, Earth, and Science) based on the tested skills. All objectives are covered, with mini-lessons focusing on each specific skill. Each skill includes a lesson with an overview, vocabulary, vocabulary practice, concept practice (fill in the blank), and a final test. Answer key is provided. There is a minimum purchase of 20 for this consumable workbook.
OUR BEST SELLER.

© Science Vocabulary Book (Grades 3-5) AVAILABLE IN SPANISH

This reproducible workbook includes vocabulary words from Earth, Life, and Physical Science domains. This workbook is a must for students preparing for the TAKS Science Test.

© Science Word Wall Magic (Grades 3-5) AVAILABLE IN SPANISH

This kit includes all necessary vocabulary words from Earth, Life, and Physical Science. Each word is displayed on a piece of cardstock in large, black letters ready to be mounted on a word wall in the classroom. Great visual reference to use throughout the school year to prepare for the Science TAKS test.

www.TAKStest.com

© Science Review and Assessment (Grades 4-5) AVAILABLE IN SPANISH

This reproducible workbook provides practice pages in all 3 areas (Life, Physical, and Earth) of Science. Review pages are skill specific, and include numerous review questions in TAKS format. Practice tests in TAKS format in Earth, Physical, and Life Science are also included. All TEKS and TAKS Objectives are included within the review pages and on the assessments. An answer key is provided.

MATH WORKBOOKS

© Ultimate 6 (Grades 1-2) AVAILABLE IN SPANISH

This workbook offers reproducible pages for students in first or second grade. This workbook is straightforward practice that offers solid coverage of grade-level math TEKS. Answer key is provided. (Please specify Grade 1 or 2 when ordering)

© Ultimate V (Grades 3, 4, 5, and 6) AVAILABLE IN SPANISH

All math TEKS and TAKS Objectives are included in this reproducible workbook that includes the most up-to-date information. This is a skill specific workbook delivering focused practice in all TAKS objectives and TEKS (all new skills are added). Each page specifies the objective and TEK that is covered, and include multiple choice type problems. There are multiple practice pages for each Objective/TEK to ensure mastery. An answer key is provided.
Please specify grade level when ordering.

MATH WORKBOOKS

© Facts in Under a Month (Multiplication Book)
Do you want your students to master their multiplication facts? Then this is the book for you! This workbook offers reproducible pages of all multiplication facts in isolation beginning with the 2's and ending with the 12's. Students must master each set of facts before moving on to the next set. After mastering all facts in isolation, students will begin practicing a mixture of facts to increase accuracy and speed.

© TAKS Computation (Grades 3, 4, and 5)

Are you having trouble with students getting word problems correct? May be the problem isn't in the reading but the computation? This book will help in all computation problems on TAKS. Please specify which grade you would like to order.

www.TAKStest.com

READING/Writing WORKBOOKS

© Trail to TAKS (Grades 2, 3, 4, and 5) AVAILABLE IN SPANISH
Prepare your students for upcoming Reading TAKS test. This workbook provides practice in grades 2, 3, 4, or 5 to reinforce reading comprehension skills such as main idea, details, summary, sequencing, fact and opinion, character feelings, inferencing, and word meanings. All Reading Objectives are included within the multiple-choice questions that follow each passage. An answer key is provided. Workbooks are consumable and have a minimum purchase order of 15. Please specify grade level when ordering. 6TH GRADE COMING SOON!!

© Super Vocabulary (Grades 1-2)(Grades 3-5) AVAILABLE IN SPANISH
This reproducible workbook offers list of vocabulary words with their definitions to help students learn meaning of new words, improve test scores, increase existing vocabulary, and enhance reading comprehension. Each set of vocabulary lists includes practice pages such as matching, word searches, unscrambles, secret code, as well as a final test. Please specify Grades 1-2 or Grades 3-5 when ordering, as vocabulary words are grade specific.

© Super Vocabulary 2 (Grades 3-5) AVAILABLE IN SPANISH

This reproducible workbook is to be used after completing the first vocabulary workbook. Completion of the first vocabulary workbook is a must as the words in this workbook are higher level for end of the year practice. Students will continue to learn meanings of new words, improve test scores, increase existing vocabulary, and enhance reading comprehension. Each set of vocabulary lists includes practice pages such as matching, word searches, up-downs, secret code, as well as a final test. This workbook is only available for Grades 3-4-5.

© TAKS Writing Adventure AVAILABLE IN SPANISH

Prepare students for the TAKS Writing Test or simply reinforce writing skills with this consumable workbook. Students will practice all writing TEKS and Objectives, including identifying sentence fragments, capitalization and punctuation rules, and grammar mistakes by editing different samples of writing. There is a minimum order requirement of fifteen, as this book is a consumable.
