Good Morning Mark,

I apologize, I misunderstood and thought we were past the deadline and unable to bid for your district. It is my hope that my mistake does not reflect poorly on my company's ability to perform.

Please see our attached letter of intent. Take this email as a request for special consideration from your review board to still being allowed to submit a bid for your district in this RFP process.

My company and I will continue to monitor your process and determine our ability to complete the bid process for you while we wait for word about your review board's decision.

Thank You,

Lisa Castle

Regional Administrative Assistant

Mid Columbia Bus Company
