

Athletics

- I have been working on filling in the couple of gaps left in the basketball schedule. This has been a difficult process because most teams already have their schedule filled in.
- Volleyball did an excellent job at Regionals in Petersburg
- Thank you to all of our coaches. The time commitment that coaching requires is massive. This dedication to our students is very much appreciated and valued.
- Thank you to our referees. They have to put up with a lot.
- The middle school games went very well and were extremely well attended.
- Wrestling is getting ready to wrap up their season and their regional tournament starts in Juneau on December 8th and 9th. I will be attending this event.
- I continue to meet and have conversations with other athletic directors around the region and state in order to build positive working relationships and maximize opportunities for our students.
- DDF had a very successful meet in Juneau.
- Middle school basketball games are coming up on December 1 and 2 in Ketchikan.
- I continue to work in tandem with Leslie to get pertinent, current and important information posted on social media platforms
- I have been in contact with the office of Dan Ortiz to express concerns from a district perspective regarding the Alaska Marine Highway both from a scheduling and monetary standpoint.
- I continue to work with coaches, community groups and other stakeholders to find collaborative solutions for use of our limited gym and weight room spaces so that we can be equitable and supportive of those wishing to participate and use our facilities.
- I conducted an audit of Planet High School and ensured that all athletes were in full compliance.

Testing

- Initial conversations are taking place at the secondary level to determine the Winter MAPs testing dates. Elementary has already decided on theirs as well as the Dibbles mClass testing window for the Alaska Reads Act.
- I participated a district technology survey for NAEP testing this February and found that our bandwidth is sufficient for the test.

Technology

- The Chromebooks seem to be working out really well in the middle school.
