MiTransfer Pathways

MICU, in partnership with the Michigan Community College Association and Michigan Association of State Universities is working collaboratively to increase degree completion among transfer students. MiTransfer Pathways works to build multi-institutional transfer pathways. Additionally, MiTransfer Pathways is working on a statewide initiative to replace the Michigan Transfer Network (MTN).

Members who are currently participating in **Phase I (Biology, Business Administration, Criminal Justice, Psychology)** are: Alma College, Aquinas College, Baker College, Davenport University, Lawrence Technological University, Olivet College, Rochester College, University of Detroit Mercy, and Walsh College. If your institution is not listed and you offer a Phase I bachelor degree, please contact Shannon Price to learn more if you are interested in participating.

Next steps for Phase I participants are:

• Connect with MiTransfer Pathways Canvas Forum. All project participants have been added to a digital forum created on Canvas to facilitate communication and share project documentation. If you did not receive an email from Instructure Canvas and are a project participant, please contact Katie Giardello.

• Upload the draft worksheet of pathway courses to the Canvas Forum by September 28.

• Register for Phase I, Summit II on Friday October 19. Click here to self-register online before October 11. The Summit will be held at Adrian College.

Phase II MiTransfer Pathways are: Communications, Computer Information Systems, Mechanical Engineering, and Social Work. MICU will start communicating with members soon on Phase II meetings and information; however, we first need to confirm which members offer Phase II bachelor degree programs. Below is a listing of members and their Phase II programs. Please review your institution and if information needs to be updated, contact Shannon Price.

Adrian College: Computer Information Systems, Communication (Public Relations), Social Work

Albion College: Communication Studies

Alma College: Communication, Computer Science

Andrews University: Communication (International, Management, Public Health and Advertising), Computer Science, Social Work

Aquinas College: Computer Information Systems, Communication

Baker College: Computer Science and Information Systems, Mechanical Engineering

Calvin College: Communication (Digital, Organizational, and Strategic), Computer Science, Mechanical Engineering, Social Work

Cleary University: None

College for Creative Studies: Communication (Design)

Concordia University: Communication (Mass), Computer Science, Social Work

Cornerstone University: Communication Studies (Broadcast, Strategic), Computer Information Systems, Social Work

Davenport University: Computer Information Systems

Finlandia University: None

Hope College: Communication, Computer Science, Mechanical Engineering, and Social Work

Kalamazoo College: None

Kettering University: Computer Science, Mechanical Engineering

Lawrence Technological University: Computer Science, Mechanical Engineering

Madonna University: Computer Science, Social Work

Marygrove College: None

Northwood University: Computer Information Management

Olivet College: Computer Science

Rochester College: Behavioral sciences with Social Work track, Mass Communications (Broadcast Media Arts, Digital Media Arts, Graphic Design, Journalism, Public Relations), and Computer Information Systems

Siena Heights University: Communications, Computer and Information Systems, Social Work

Spring Arbor University: Communication Studies, Computer Science, Social Work

University of Detroit Mercy: Communication Studies, Computer Science, Mechanical Engineering, and Social Work

Walsh College: None
