With an extended response proposal, evaluations and awards are granted to additional vendors on a rolling basis throughout the solicitation period. This period remains open year-round until the final renewal option expires. Responses are evaluated as they are received, and vendors are notified of the district's decision accordingly. Newly approved vendors will be included in the list of awarded vendors submitted to the Board during each annual renewal. This means that while vendors may be added throughout the year under the extended response process, their names and award details will be formally reported as part of the renewal documentation submitted for Board review and approval each year.

The district issued Competitive Sealed Proposal (CSP) #25-004 to secure qualified vendors for *Career & Technical Education (CTE) Equipment, Supplies, and Related Services – Extended Response*. This proposal supports the specific needs of the career and technical education department/campuses and includes items for areas such as agriculture, food & natural resources, architecture & construction, arts, A/V technology & communications, business, marketing & finance, engineering, health science, hospitality, information technology, law and public service, manufacturing, transportation, distribution & logistics, and other career & technical education areas. Eighty-eight (88) responses were received and opened by the purchasing department on Friday, April 25, 2025, two (2) of which were withdrawn after being submitted by mistake.

An evaluation committee comprised of representatives from various departments was convened to review and assess the proposals. Each response was evaluated based on the criteria outlined in the solicitation. Committee members scored each category individually, and the scores were compiled to determine an overall ranking for each vendor. Based on the evaluation results, the committee recommends awarding the following vendors:
