Educational Resources Coop Core Package
2013-2014**

Biography Reference Center contains many of the top-ranked biographical reference collections and magazines and offers a comprehensive collection of full-text biographies, as well as thousands of unique narrative biographies. This resource covers several of the most popular and heavily-researched biographies and genres in 30 genre categories, including actors, artists, authors, current world leaders, explorers, and religious leaders.

eBook K-8 Collection provides access to full-text eBooks in PSF format. This collection contains approximately 4,800 titles covering all subject areas taught in elementary and middle schools. The collection also features a selection of teacher resources to support curriculum connections. Titles are continually added.

eBook High School Collection provides access to full-text eBooks in PDF format. This package contains approximately 5,100 titles that support all academic subject areas, from history to language and literature to science and technology. Content includes a selection of classic literary works, important historical documents and general reference materials. The collection also features a teacher resources section to support curriculum connections. Titles are continually added.

English Language Learner Reference Center is a multi-purpose information resource designed for middle and high school students and anyone that is new to the English language. This database will help ELLs succeed academically and in everyday life by providing assistance as they conduct research, build their background knowledge and develop study skills. This database includes content written in an age-appropriate interest level, using targeted vocabulary and a simplified structure helpful to non-native speakers. It also includes simple tests designed to support English language proficiency and comprehension in topics such as reading, note taking, writing, science, math, history, civics, life skills, and literature.

Novelist K-8 Plus is a database of book recommendations that helps parents, teachers, and librarians improve literacy, connect reading across curricular areas, teach reading and writing concepts, and engage young readers. This database includes fiction and nonfiction titles for children and teens; reading recommendations from librarians and school media specialists; curriculum connection articles; book talks; classroom ideas; and read-alikes for every title, author, and series.

Novelist is a database of fiction book recommendations for secondary grades based on recommendations from professional librarians. It includes read-alikes for every title, author, and series and easy-to-use resources that include Book Discussion Guides, Thematic book lists, Reading and book-oriented articles, and classroom teaching ideas.

Points of View Reference Center contains many topics, each with an overview (objective background/description), point (argument) and counterpoint (opposing argument). For each topic, this database also offers a Guide to Critical Analysis, which helps the reader evaluate the controversial topics. The Guide to Critical Analysis enhances students' ability to read critically, develop their own perspective on the issues, and write or debate an effective argument on the topic. This database includes over 1,300 main essays from political magazines from all sides of the political spectrum, newspapers, radio and TV news transcripts, primary source documents, and reference books. The database also offers guides for writing position papers, developing arguments and debating.
