**Re:** TSDS

---

**The Texas Student Data System (TSDS) is a new statewide system for collecting and reporting education data.**

**TSDS replaces and expands on the existing Public Education Information Management System (PEIMS):**

**TSDS modernizes the PEIMS data collection process to reduce technology risk and system downtime allowing for more system availability and use.**

**It puts real-time student performance data in the hands of educators to improve student achievement.**

**TSDS will become the one common data collection platform for TEA to remove the data collection burden on districts and charter schools.**
