Accountability Results: 2018-2019

Accountability Overview:

- The accountability system grades schools on 3 domains:
- **Domain 1: ACADEMIC ACHIEVEMENT:** Overall percentage of students who scored at least at the “Approaches grade level” threshold on STAAR. ***Includes CCMR and graduation rates at the high school (40% scores, 40% CCMR, and 20% graduation rates); (100% scores at elem. and middle).**
- **Domain 2: ACADEMIC GROWTH:** Overall growth of students from one year to the next. Points are earned if students show at least satisfactory growth. Students can earn points in Domain 2 even if they don’t reach the “Approaches” level in Domain 1. The key is student growth. **RELATIVE PERFORMANCE: How the campus compares to other campuses with similar demographics/size.**
- **Domain 3: CLOSING THE GAPS:** Measures whether the achievement gaps among all student groups (including SPED and Eco. Dis. groups) are closing **and** if each group is achieving their target scores set by TEA. It considers students who scored at **“Meets”** (at least one year of growth) or **“Masters”** (more than one year of growth) in RLA and Math. ***Includes CCMR, graduation rates, and EL rates at the high school. (50-30-10-10)**

STAAR Results: Campus by Campus

- To consider:

- *This is the first year that the district and all campuses received an A-F rating under federal accountability.*
- *WOSMS and WOSHS were both designated as “Comprehensive” campuses in 2017-18. It takes two consecutive years of meeting state standards to come off of the list. Both campuses will carry the designation for at least one more year.*
