

## **Board Report July 2018**

Aimsweb Plus: We are renewing our subscription to Aimsweb Plus. This allows our teachers across the county to have access to a benchmark assessment to show student growth as well as effectiveness of specialized instruction. We are also requesting a comprehensive Train the Trainer so we can have all of our staff trained to support locals. We are also going to invite a local teacher from each district as well.

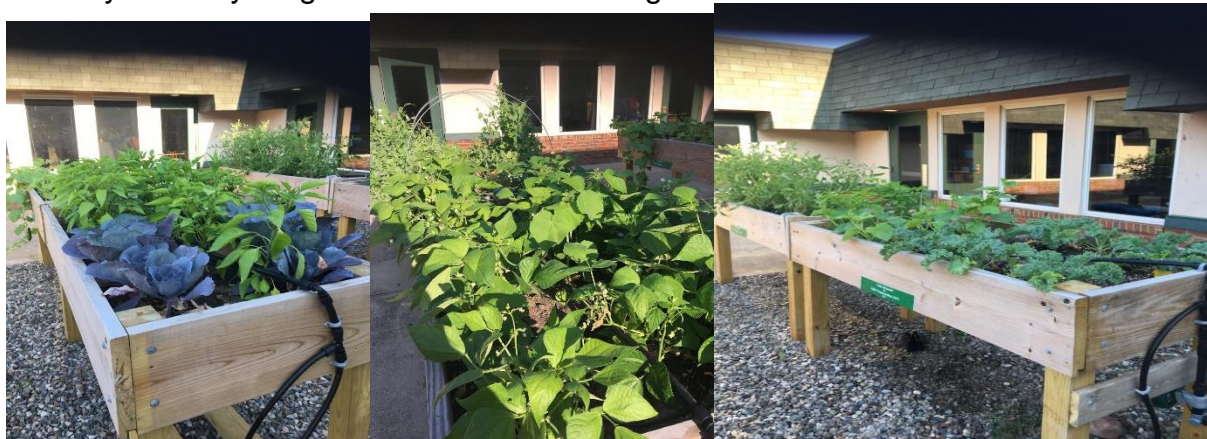

MAASE Summer Institute: Susanne Masters and Mindy Wilson along with CAA will be presenting on inclusion within the preschool setting. Shawn Ellison and Stacy Ansel will also be presenting on bridging the gap between special education and general education. This conference is taking place August 13th-15th.

Special Education Supervision: Now that we have a full special education administration team, we are now restructuring supervision of staff and local districts for the 2018-19 school year.

### Greenfield

The teachers at Greenfield have been working hard to clean-out and reorganize their classrooms for the upcoming school year. The custodial and maintenance staff have also been working non-stop to get floors, carpets and other needed maintenance done for the upcoming school year. They have also worked hard moving offices and other furniture around the building. Their hard work is much appreciated!!!

The SCI and SXI classrooms continue their hard work in the vegetable garden. Veggies are growing fast and look great! This has been a wonderful experience for our students! Thank you Cindy Magda and Danielle Yielding

Senate Bill 786: The bill that schools must respect the parent right to DNR on the child has passed. We are awaiting the details from this bill to get into our handbooks and policies.
