

## **KAUFMAN ISD - MAINTENANCE REPORT**

**March 2025**

The Kaufman ISD maintenance team has continued to work on improvement projects around the district. In addition, there were over 275 work orders submitted during the month of February 2025.

Here are just a few of the projects that have recently been completed:

The crew took down a wall in the Phillips gym and replaced it with a new one. They were able to do the project during the February break. Additional walls will be replaced in the future.

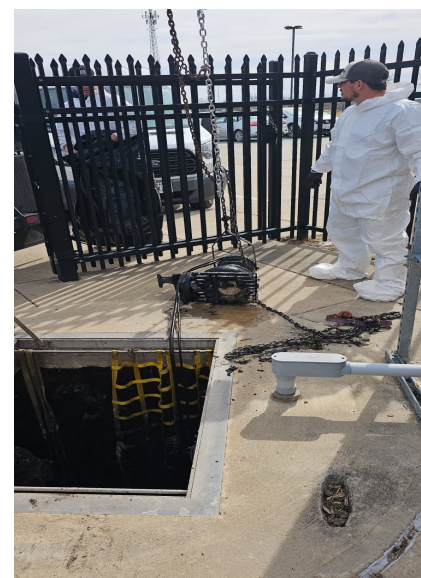

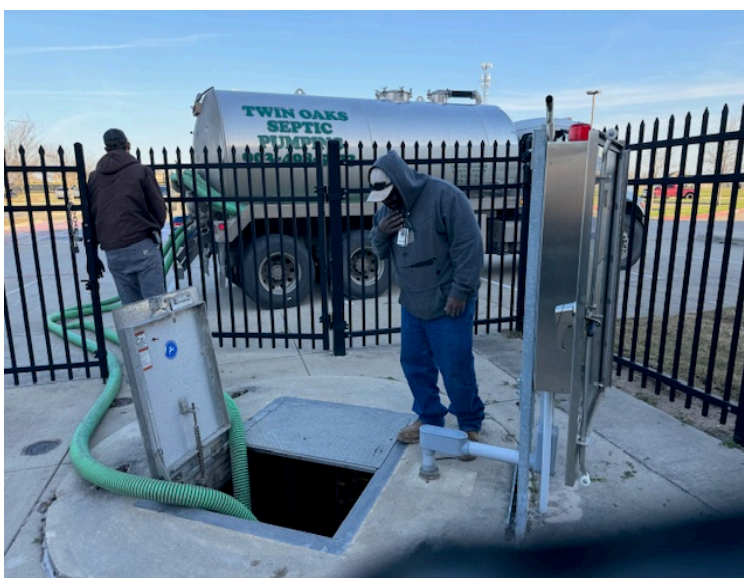

**Another winter storm hit the district this month. The maintenance crew got out early to make sure all the sidewalks and parking lots were treated with a dose of ice-melt. Even the Transportation Director got involved!**

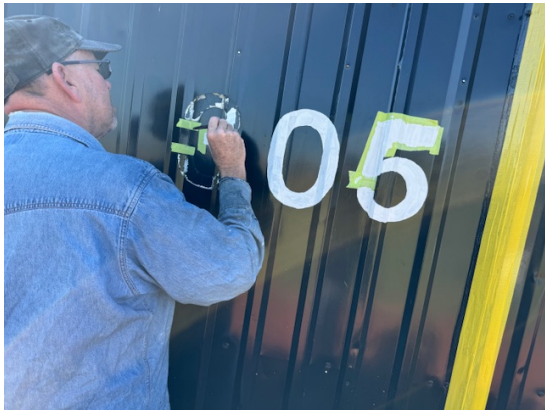

**Every month the maintenance team monitors and performs repairs to multiple lift stations around the district. Often times the task requires special safety equipment. The team works hard to keep those systems running daily.**

**The district painter added some final touches to the baseball facility.  
Good luck to the Lion Baseball Team on the upcoming season !**

**Changing out light bulbs is a routine occurrence in the maintenance department. Older lights are replaced with LED's which are a better quality option and more cost effective over time.**

**Exit loops were installed at the new security gates. These electronic loops will allow cars that are inside the gate to exit the facility using a sensor embedded in the concrete.**

**The crew is always ready to tackle whatever new problem may come up, like repairing this storm drain at Nash Elementary. With a few cuts and some light welding, this drain is now safe for students to walk across. Good job guys!**

**The maintenance crew would like to say thank you to everyone out there for their continued patience and support. It is a pleasure to be able to serve in Kaufman ISD. Go Lions !**
