

WORK EXPERIENCE EDUCATION

BP 6178.1

The School Board believes that work experience education programs can provide students with valuable instruction in the skills, attitudes and understandings they need in order to be successfully employed and that a proper balance between work experience and academic instruction should be maintained.

Students in work experience programs shall receive related classroom instruction or counseling. School-side requirements for work-study credit will be addressed in the student handbook.

(cf. 6164.2 - Guidance and Counseling Services)
