

**Graham Independent School District
Board Agenda Item Synopsis**

Subject: Review of Middle of the Year Campus Data

Background Information:

Middle of year student data is utilized to assess student progress, identify growth areas, and refine instructional strategies to ensure continued academic achievement. In Graham ISD, we study a variety of middle of the year data such as NWEA MAP, Checkpoint assessments, and Circle to address skill gaps and assess mastery of key concepts. Our campus principals will present their campus data and progress towards their plans to meet the needs of their students.
