EXTRACURRICULAR

TESTING

RATIONALE

The Board encourages students to participate in school-sponsored extracurricular activities but believes the opportunity to participate is a privilege offered to eligible students on an equal opportunity basis. The use of alcohol or other drugs by students participating in extracurricular activities presents a hazard to the health, safety, and welfare of the student participant. The Board believes testing student participants in school-sponsored extracurricular activities serves the important purpose of detecting and preventing illegal drug and alcohol use among students.

DEFINITION

"School-sponsored extracurricular activity" shall mean, without limitation, all interscholastic athletics, cheerleading, drill team, academic clubs, special interest clubs, musical performances, dramatic productions, student government, and any other activity or group that participates in contests, competitions, or community service projects on behalf of or as a representative of the District.

REQUIRED TESTING

To be eligible to participate in any school-sponsored extracurricular activity, a secondary student (grades 9–12 **and 8th grade band members**) shall agree to participate in a drug-testing program that includes a mandatory test of all participants at the beginning of the school year and random testing during the school year.

USE OF RESULTS

The results of any drug test administered under this policy shall be used only to determine eligibility for participation in school-sponsored extracurricular activities.

CONFIDENTIALITY

Results shall be kept confidential and disclosed only to the student, his or her parents/guardians, and school officials designated by the Superintendent. Results shall not be placed in student records. Students shall not be penalized in any other way. No actions shall be taken by the school against the student other than suspension from participating in extracurricular activities, as outlined below.
