Re: Portable Computers

Please submit this purchase information to the BOE for the June 8, 2015 meeting.

The Comprehensive Technology Plan includes the purchase of portable computing devices for all 6th grade students, as well as portable devices for cohorts of high school students. After extensive research and consultation with staff and administration, we have selected the Lenovo ThinkPad Yoga 11e as the best available option for our secondary level students. This model exceeds all of our required specifications and satisfies what we were looking for to successfully transform learning. As a Windows 8.1 portable computer, students will be able to use the Lenovo Yoga for all of their computing needs. It meets the requirements for PARCC testing, and includes features such as good battery life, adequate memory and processing speed, and a three year accidental damage protection warranty. Microsoft Office will be installed on these devices, and students will have access to existing network services and Office 365 cloud storage and applications.

These devices will be purchased through Insight Public Sector.

Equipment	Qty	Unit Price	Total Amount
Lenovo ThinkPad Yoga 11e	760	\$484.70	\$368,372
Lenovo Depot 3 yr. Warranty with ADP	760	\$79.00	\$60,040
Total			\$428,412
