

Technology Report

May, 2013

This month the Technology Department has worked on the following projects:

- Worked with Ener-Tel on the annual fire alarm inspection, inspecting the fire alarms at every building in the district.
- Worked with Erate issues, submitting forms and attachments required by Erate.
- Assist Testing Coordinator in setup of computer and delivery of online testing through April and May testing sessions.
- Replaced a damaged camera on the distance learning cart in the OHS computer lab.
- Worked in HE building at OHS with connectivity issues and printer problems.
- Worked with AVID, setting up 6 new reference iPad minis.
- Worked on the Web page, updating information and posting employment opportunities.
- Worked with the new athletic director setting up technologies for him.
- Worked with several teachers with computer issues ranging from computers that won't boot, to email issues, to printer issues, etc.
- Worked with teachers on updating the operating system on their iPads.
- Worked with the Federal Programs Director, updating information on the web pages dealing with her programs.
- Worked with several teachers on gradebook issues.
- Worked with students with issues they have with their issued Acer tablets.
- Worked with Coach Tandy updating Acrobat Reader and connectivity issues at Davidson Gym.
- Worked at OES setting up Imagine Learning and Istation for summer school.
- Worked with Mr. Gully Mrs. Talamantes on projector issues with SchoolView and their document cameras.
- Replaced printer in OMS lab
- We continue to support faculty, staff, and students with issues and needs that arise.
