1. Tech Professional Development
    a. SLATE: Kim, Jackie, Jess...Who can we invite that *isn't* a tech coach?
    b. TIES:
    c. GOOGLE:
    d. CESA 11: These are already signed up for the year by Brandon; Brandon has had the admin team chose other people (besides tech) to attend these trainings.
2. 1:1 iPad Initiative Expansion
    a. 5th grade is using the grant to get iPads. Now MS and HS will all be 1:1
    b. iPads aren't here yet, but will be here before the end of October
    c. Kline: We should do a training and expectations with 5th graders.
    d. [Google: Be Internet Awesome](#)
3. Student Online Learning
    a. WVS (Wisconsin Virtual School): Doesn't necessarily "play nice" with our devices so students need different devices;
    b. In-House Virtual Learning: Possibility for our HS staff to create our own virtual school--lots of different ways to do that; At the MS/ES level it could look like interest based or an accelerated class; Brandon doesn't have a "number" based goal, but thinks it would be a good place for us to head.
    c. Creating by our staff would look more like us creating this over the summer for a one tri course.
4. Labs and Carts
    a. A limited resource.
    b. There will not be a set of devices for the HS to just use because they "forget" to charge it.
    c. We need to force students to use their iPads. They don't want them using their phones. Make sure that they want to bring their iPads.
5. Personalized Learning
    a. Admin is working on developing a plan for Personalized Learning
    b. Tech Team needs to get in here early and heavy
    c. SAMR model--not all done at once. Don't redesign all units. Pick one to fully integrate technology.
