

Maintenance Report
June 21, 2017
Submitted by: Richard Sanchez

Summer work has started with the building maintenance requests. Heating system Preventive Maintenance, grounds work, plumbing, and electrical repairs. We are not taking any electronic work orders requests at this time, just emergency calls as our staff is busy with their Summer Work Booklets and we need to complete that by the time school starts in August. I hired summer help to help out with mowing lawns and watering. Trash pickup is still a daily task.
