

Minidoka County School District

Transportation's Report

May 31, 2017

This school year has come and gone. Boy time flies when you're having fun!

This year May was full of some amazing field trips, sport trips and some extracurricular activities. A couple of days we had as many as 32 buses out at one time going from one end of the Magic Valley to the other and beyond. Some of my drivers had trips every day bless their hearts. They are real troopers.

We had 16 bus citations this month which is not bad for the end of school. They ranged from swearing, not staying seated while the bus was moving, writing on the seats, blowing up condoms and letting them fly around the bus, writing on another student's face with magic marker while he was sleeping, to a couple of young men fighting on the bus which resulted in a bus suspension.

We did have one driver retire this year at the last minute. Paul Henscheid will be retiring from his full time route, and he did say that after harvest he would like to come back as a sub driver. Paul has driven bus for about 8 ½ years.

We had our end of the year party this year. We invited all the staff and their families to have hamburgers and hotdogs, potluck salads and desserts. We played volleyball, croquet, we even got to take a boat ride down the river and see a couple of bald eagles with their nest. A great time was had by all.

We are looking for drivers for next year, so if you need something to do in your spare time, please feel free to come and join our crew.

Alicia Bywater
Transportation Supervisor
