Re: Approve 2026-27 Program Plan

Recommendation:

It is the recommendation of the Superintendent to approve the 2026-27 Program Plan.

Background Information:

Annually the program plan allows for the district to employ and assign staff for the upcoming school year. There are no proposed changes to the amount of staff for the upcoming school year:

Some things still to be determined:

- Employment of new MS Science teacher, 1st grade teacher, and Social Worker to fill positions created by retirements
- Assignment of additional supports for Math and Reading at the intermediate level
