

SAC School Board Report

SAC - Report to the School Board

Year End report:

- our Girls and Boys basketball teams competed at state
- We have 4 teachers that aren't returning - we'd like to express our appreciation for their hard work this list year.
- NYO is gearing up for competition – we have 6 athletes that will be going to Anchorage
- Student Council has been very active this year with pep rallies, spirit days, movie nights, and the student store. Petro star sponsored 3 students to go to Chicago for the National Student Council Conference.
- SkiKu & AKNordic have been here for the past 2 weeks - our kids have progressed greatly in their skiing ability. We took 6 students on an 8 mile skijoring expedition on Saturday and had a great time.
- Our electives this year have kept our students busy - we've had wood shop, an agricultural class, home-ec, and music. Our students have made coat racks for the office, grown food that they cooked and shared with everyone, and our music students have played for a few funerals this year.
- Our year will wrap up with Science fair, spring carnival and we just had our outdoor spring fling snowmachine trip for the secondary.
- Graduation is shaping up to be great – with 5 graduates

Concerns

- School Board meetings during the school day instead of in the evening
- Scheduling - can cause disruptions to student learning - some examples include
 - district employees that come to the villages
 - ASRC/borough
 - Possible solution - have the travel office input travel schedules to the online district calendar so each location can see when/where everyone is going
- IT difficulties
 - non-working bells/clocks
- Attendance
 - our attendance is down – which is a trend we have seen for the past few years after basketball seasons ends
