# **Transportation's Report**

**May 31, 2016**

Wow where has the school year gone!

May was a very busy month for transportation.

Lots and lots of field trips from the schools had all of our drivers hopping. Some of them had at least 2-3 trips each week besides their routes. We have many fun and educational sites to see and do around our area if we just look.

Bus citations were very low this month. We only had 11 bus citations this month which is very low for the end of school. They ranged from back talking the bus driver to not staying seated while the bus was moving to a couple of sexual harassments which resulted in bus suspension.

We did have one driver retire this year. Ron Hruza had driven for us for a little over 5 years. The students on his bus are going to miss him. Good luck in your retirement Ron.

With the end of the year come some bus troubles. I guess the buses are tired as well as the drivers, but with the 3 guys in the shop they are amazing and keeping us up and running.

We have received 3 brand new buses. We are excited to have them here and ready to go to work.
