to
School Board of Trustees*

Your recent request to travel has been approved. Within two weeks of the date of the conference, the following report is due in the office of the Deputy Superintendent via Margaret Heim.

Please Download & TYPE the following information.

Staff Member: Taleah Hinkey School: DO

Assignment: Work-Based Learning Coordinator Name of Conference : Association for Career and Technical
Education Career Tech Vision 2024
(Do not use acronyms)

Location of Conference: San Antonio, Texas Dates Attended: December 4-6

General Overview: Do not use acronyms

The Association for Career and Technical Education (ACTE) Career Tech Vision 2024 Conference is an annual conference for professionals in the Career and Technical Education field across the nation. This conference offered comprehensive programming covering high quality Career and Technical Education in secondary and postsecondary institutions. This conference also provided attendees with emerging trends in the field to help Career and Technical Education professionals thrive in their respected positions.

How will this impact student learning in a positive way?

This conference impacted student learning in a positive way by helping all professionals involved in the Career and Technical Education field learn different trends and programs across the nation that are thriving in the Career and Technical Education field. The hope is that these trends and programs may be implemented in their home states and schools to have a positive impact in student learning related to Career and Technical Education.

How will I implement what I learned and how will I share this information with my colleagues?

As the Work-Based Learning Coordinator for our district, I plan to implement what I learned from the conference to our Career and Technical Education teachers and administrators at our Career and Technical Education Advisory Board Meeting.

I learned that there is a need to have each Career and Technical Education program linked to a simulated work experience as well as internship lined up for each student in their respected Career and Technical Education area of study.

Other Comments:

Thank you for allowing me to attend this conference. I was able to network and make connections with other Work Based Learning Coordinators across the country.
