Maintenance Report 05.25.22

The Maintenance department has been staying busy in the month of May. We have been preparing the High School basefield for senior league baseball, which required a lot of grounds preparation and making it safe for players and spectators. The warmer weather is here, and the grass is growing and that is a full-time upkeep in the summer months. We are preparing for summer maintenance and have been creating to-do lists and ordering materials ahead of time so we can start working on the district's buildings right away. This will be my first summer run with the district and I am looking forward to the work ahead and getting a lot accomplished. The woodchip boiler blew a high pressure valve a few weeks ago and the city is having a hard time finding a replacement. The city decided to shut it down completely, and earlier than normally scheduled. If there are any questions regarding the report or maintenance in general, don't hesitate to ask.

Daniel Nelson
Maintenance Director
