PLC Grant

Homedale High School has been awarded a Professional Learning Community grant of \$24,000. Over 80 applications were submitted for this competitive grant, and we were one of only one third of the applicants to receive an award. This grant will provide an opportunity to 12 HHS staff members to attend a PLC learning institute this summer. It will also include two years of ongoing support from the State Department of Education.

ESSER Monitoring

We have officially completed the ESSER Monitoring process and had no finding or actions required.
