FYI on another recognition for Terry Snow and her students. Terry needs to confirm that she will attend. She said the grant money should cover the expenses. She would like to take the three 9<sup>th</sup> grade students that received recognition last year for the work they were doing with the Prairie Project. Since this is out of state, does this need to go before the board? I highlighted the time sensitive information.

Thanks,

Kathy,

HOORAY! Below is an invitation for 3 students and I to present at the National Service Learning Conference in Atlanta, GA. Grant funds will cover the present registration expense and Service Learning Texas is working towards covering the flight expenses for the students and I.

### **Update on 2010-2011 project;**

Students have finished up inital scale drawings, partner meetings, etc. Students will be meeting with landscaper prior to Thanksgiving and final drawings should be back from the landscaper prior to Christmas for administrators to look over and discuss possible adjustments or needs with student leadership group. The students have focused on native grasses around the greenhouse and outside the fence on the Gym 1 side of the campus around to the front of AMS.

The students are working on a maintenance plan as well and have chosen the Disney Planet Challenge for this year's national competition.

HOORAY AGAIN!
