

DU PAGE ELEMENTARY SCHOOL DISTRICT 13
BOARD OF EDUCATION
Bloomington, Illinois
Regular Meeting January 27, 2020

FOR INFORMATION:

Subject: Superintendent's Report

Superintendent Goals Progress Report -

At the meeting, I will make a brief presentation on the progress being made toward my goals for the 2019-2020 school year. An executive summary and copy of the brief presentation is attached for your review and consideration.

Technology Department Update –

I have shared that the Directory of Technology, Kelly Ordoqui, resigned from her position in November and that I was going to use some time to research what other school districts are doing in the area of staffing their Technology departments. Earlier this month, Vanessa Lopez, one of the District technicians, submitted her letter of resignation effective February 7. I am currently updating job descriptions for the roles within the department based on data and discussions that I have had with those inside and outside the District. My hope is to find a qualified candidate to fill Vanessa's role before she leaves so that there may be some transition and onboarding for the new employee.

I have also brought Brad Gordon of Techno Consulting into the District on a trial basis to help monitor our system, provide an audit of the systems that are in place currently with tiered recommendations for anything discovered that needs to be replaced or repurposed. I have worked with Brad when I was in River Grove and was impressed with his approach and support of the system in that district.

Board Union Meeting Report -

This is an opportunity for Mr. Moreth and Mr. Boebel to share their experiences with the most recent meeting between the Board and the Bloomington Council of Teachers Executive Board on Monday, January 13th.
