Changes in Final Allocation Amounts

The SDE had the expectation to receive a second revised final allocation amount for the 2016-2017 year in January. Unfortunately the U.S. Department of Education did not release the second revised allocation. This has affected both our Title I-A and Title II-A allocation for the current year. Changes are as follows.

Title I-A

Previous allocation: \$275,890

New allocation amount \$270,146

Title II-A

Previous allocation: \$56,016

New allocation amount: \$55,836

District Professional Development Day

Our annual professional development day was held February 24th at the Middle School. We had 13 teachers present sessions on various content including common core reading and writing, Eureka math, brain breaks, technology, and many others. It was a successful day of learning.
