

Consider approval of the purchase of 72-passenger school buses

1. Background:

The Transportation Department would like to purchase new buses to replace aging buses in the district fleet. District staff is requesting to purchase six (10) 72-passenger diesel-engine buses

Thomas 72-passenger bus

<b>Company</b>	<b>Cost Per Bus</b>	<b>BuyBoard Fee</b>	<b>Total Cost for 10</b>
Thomas Built Buses	\$167,700.00 (10)	\$800.00	\$1,677,800.00

2. Process:

The quotes and pricing were obtained from Thomas Bus Gulf Coast GP, Inc., which is an awarded vendor through the TASB's BuyBoard purchasing cooperative. Competitive procurement is through RFP 2223-125 Transportation Supplies, Equipment, and Supplies. All buses will be equipped with air-conditioning, seatbelts, and interior cameras for safety purposes. Thomas Built Buses offers lower fuel, maintenance, and replacement part costs. This manufacturer also provides for a lower total cost of ownership. District staff is recommending that all buses be purchased from Thomas Built Buses.

3. Fiscal Impact:

The total cost of the bus purchases will be \$1,677,800.00, and funding will be through the 2023 Bond Funds

4. Recommendation:

The board approves the purchase of six (10) 72-passenger diesel-powered buses from Thomas Bus Gulf Coast.

5. Required:

Board action.
